

The WIPO Academy Education and Training Programs Portfolio 2019

**The WIPO Academy
Education and Training
Programs Portfolio 2019**

Foreword by the Director General

The WIPO Academy's 2019 Education and Training Programs Portfolio demonstrates the Organization's continuing commitment to its strategic goal of building human capacity in intellectual property (IP). The main focus of this effort is on providing access to IP education and training for participants from least developed and developing countries and countries in transition. In 2019, the WIPO Academy will continue to provide courses covering the full range of IP topics in several languages and formats, further building on the WIPO Academy's extensive experience in this field and fully harnessing the international network of partnerships, which it has carefully nurtured with national, regional and international institutions.

In 2019, the courses will continue to use distance learning (DL) to increase access to IP knowledge. In recent years, the number of participants in the Academy's Distance Learning Program has soared. Demand is increasing for tailored versions of general DL courses that are adapted in terms of both language and content. Partnerships are one way in which the Academy is both generating and managing demand. The WIPO Academy signed a Cooperation Agreement with the China Intellectual Property Training Center (CIPTC) in 2016 and, under this agreement, the CIPTC has started to offer the Chinese version of DL courses. A similar agreement was signed in 2017 with the National Intellectual Property Institute in Brazil for the Portuguese language versions of the DL courses. DL course participants will, in 2019, continue to benefit from the fee reductions that were introduced in 2016.

Responding effectively to the training needs of Member States will continue to be a focus for the Academy's specialized, face-to-face courses for government officials. The courses offered under the Professional Development Program (PDP) in 2019 are delivered in synergy with the technical assistance provided by other Divisions within WIPO. The PDP courses are designed and offered in full partnership with the Member States. The courses further enhance South-South cooperation, maximizing the IP knowledge and skills that exist in the South through new partnerships. Rigorous evaluation and assessment of these courses is important and will allow the Academy to review the learning objectives of its long-standing

training courses and ensure continuous improvement in quality to meet the needs of Member States effectively.

The WIPO Academy will continue to promote and support access to IP higher education in 2019 through its Academic Institutions Program (AIP). The very strong reputation of the Academy's Joint Master's program will continue to form a cornerstone of its work in this regard. The Academy will allocate resources to support universities in other ways to increase access to IP higher education. Owing to the continued popularity of the WIPO Summer School Program, the number of Summer Schools offered and the number of participants have grown. The majority of these schools are offered in partnership with universities as well as IP offices to help to ensure the best mix of target participants. Finally, the AIP will continue to support countries – at their request – to localize training by helping them to build training capacity through the establishment of national IP Training Academies in WIPO Member States.

In 2019, following the launch in November 2018 of the Continuing Judicial Education on Intellectual Property Service, the General Distance Learning Course for Judges will be offered in all of the official languages of the United Nations and Portuguese. Also new in 2019 is the scaling up of the IP4Youth&Teachers Service, with translations into Spanish. The service will become available gradually in other official languages of the United Nations.

Francis Gurry
Director General

Preface

In 2019, the WIPO Academy will continue to reflect on the strategic and innovative orientations needed to maintain its position as the global center for intellectual property (IP) education and training. Improving its course offerings, reaching new target beneficiaries and lowering participation fees will continue to be among its priorities in the years ahead. This is crucial to ensuring that the Academy will achieve its primary goals of facilitating access globally to IP knowledge and of building human capacity in the field of IP, particularly in least developed and developing countries and countries in transition.

As demand continues to grow both in terms of participation levels and the need for greater specialization and customization of courses, the WIPO Academy's Education and Training Programs Portfolio will continue to deliver its core training courses, while adapting to meet these new and diverse demands. In 2019, the WIPO Academy again offers a wide range of courses covering all IP areas in a variety of formats and languages. Courses range from basic and advanced distance learning (DL) courses, to specialized, professional development training for government officials, and to higher education and the teaching of Master's degree courses in IP at the university level. They are all delivered in close cooperation with partner institutions and with external, independent academic expertise. The strong reputation that the Academy has built since its foundation in 1998 rests to a great extent on the quality of the education that it provides, its credibility as a neutral and impartial source of knowledge, and the extensive network of highly respected partners with which it works.

The highlights and new developments in courses offered by the Academy in 2019 are summarized below.

- As part of the recently launched Continuing Judicial Education on Intellectual Property Service, the General Distance Learning Course for Judges will be offered in all of the official languages of the United Nations and Portuguese in 2019. This is an outcome of the Committee on Development and Intellectual Property (CDIP) Judicial Training Institutions Project, which concluded in 2018.
- In an effort to continue to support IP education for young people, the IP4Youth&Teachers Service, which was launched in 2018, will be translated in 2019 so it

can gradually become available in all of the official languages of the United Nations and Portuguese. After the translations have been completed, the content will be customized for requesting Member States.

- Twenty-three (23) training courses on a variety of IP areas will be organized during the year for government officials and other dedicated public-sector stakeholders. As in the past, they will be organized in close cooperation and full partnership with Member States, IP offices and IP institutions. In 2019, additional emphasis will be placed on enhancing South-South cooperation by further developing strategic partnerships with developing countries to contribute their IP knowledge and skills for the benefit of other developing countries. These professional development courses will focus on practical training, technical knowledge and case studies. The courses cover regularly requested themes, including patent information and documentation, trademark procedures, collective management of copyright and related rights, technology transfer and innovation, and management and administration of IP offices.
- A record 31 courses will be offered through the Distance Learning (DL) Program. The DL Program will add new courses to complement its existing offerings and to respond to the demand for more specialized IP education in areas such as: the Advanced International Certificate Course on IP Asset Management (AICC), which will be offered in French in 2019; the IP-Impact Certificate Course for Teachers (IPCC), which will be held in Spanish in 2019; the Advanced Course on Copyright for Film Professionals; Enforcement of Intellectual Property Rights (DL-303); and the Introduction to the Madrid System (DL-MADRID). A dedicated state-of-the-art IT platform and a network of some 300 tutors all over the world have been mobilized to deliver these DL courses in the six United Nations languages and in Portuguese. The General Course on Intellectual Property (DL-101) was successfully piloted in 2016 in an accessible format for the blind, visually impaired or otherwise print disabled. The accessible course will be available in 2019 on the Academy's e-Learning Center platform in all of the United Nations languages. The 2016 fee reductions for DL courses will continue to apply in 2019.

- In addition to this year's WIPO-WTO Colloquium for IP Teachers, held yearly in Geneva, the WIPO Academy and the WTO will organize the third regional edition of the WIPO-WTO Colloquium for IP Teachers and Researchers. In 2019 it will be held in Latin America at the University of San Andres in Buenos Aires, Argentina, coinciding with the first IP Researchers Latin America Conference.
- A total of 16 WIPO Summer Schools will be organized in 2019 in cooperation with partners at venues across the globe, responding to the continuing popularity and demand for places at these schools.

This Portfolio serves as a catalogue of all training opportunities to be offered by the WIPO Academy in 2019 and outlines the content of each course. It gives information to potential participants on eligibility criteria, application formalities, timelines, selection procedures, travel and other relevant necessary information.

Important:

As the WIPO Academy's training activities are subject to change during the year, please visit the website, www.wipo.int/academy, for up-to-date information.

Professional Development Program

General Information on the Professional Development Program

The Professional Development Program of the WIPO Academy offers 23 training courses a year for participants from developing countries, including least-developed countries (LDCs), and from countries with economies in transition. The courses are organized with a number of partner institutions, including national IP offices.

The training courses to be held in 2019 are described in the following pages. For each course, information is given about its objectives, rationale, program highlights, language of training, target audience, distance learning course prerequisites, venue, duration and possible dates. As exact dates are not yet available for some courses, please visit the WIPO Academy website, www.wipo.int/academy, for up-to-date information.

The following paragraphs provide information on application procedures, travel, accommodation, medical coverage, visa requirements and related matters, which apply, to the selected candidates.

1. Prerequisites

Candidates for the training courses offered under the Professional Development Program (PDP) should have completed or be prepared to complete the Distance Learning course(s) as designated in the description of each training course. Candidates are required to have a working knowledge of the language in which the training course will be conducted.

2. Application procedure

Candidates for the training courses offered under the Professional Development Program are required to register online at <https://welc.wipo.int>. Only applications submitted online will be considered. Under each training course, the dates and the deadlines for registration are provided. It is recommended that candidates register for not more than two courses.

For government officials, registration must be endorsed by the Director General of the office or a senior official of the relevant ministry before it may be considered. It is also necessary to attach the relevant required documents as described on the Professional Development Program page of the WIPO Academy website. Follow the step-by-step instructions described under "How to register". For any assistance, please send an e-mail to pdp@wipo.int

Recommendation letters from the national authorities must be attached to their online applications (not to be e-mailed to the PDP mailbox mentioned above).

3. Selection of candidates

The selection of candidates is carried out by WIPO according to the eligibility criteria, taking into consideration the limited seating capacity for each training course. The selected candidates are notified by e-mail first, and a formal invitation letter is sent thereafter. Only selected candidates are notified. Information on travel and other administrative arrangements will be provided directly to selected candidates.

Selected candidates will be required to complete the relevant distance learning course before their participation (if not completed before selection).

4. Medical insurance

Participants in courses of two weeks or longer are covered by medical insurance taken out by WIPO for the training period. Details of the medical insurance scheme are sent to the selected candidates.

5. Medical examination

Candidates selected for a training course lasting two weeks or more are required to undergo a medical examination confirming that they are in good health. A selected candidate who is not fit to travel shall inform WIPO upon receipt of the invitation letter.

6. Visa requirements

As regards entry visa requirements (where applicable) of countries in which the training courses are held, WIPO will not authorize the selected candidates to participate in the course unless they have obtained all of the required entry visas in advance.

7. Travel and accommodation

Travel and subsistence expenses are borne by WIPO and/or by the governments or organizations cooperating with WIPO in offering the training course. Participants receive a daily subsistence allowance adequate to cover the cost of meals and accommodation, and terminal expenses to cover transportation from and to the airport.

8. Evaluation questionnaire

Selected candidates are required to fill out a pre-training evaluation questionnaire, which is drawn up by WIPO for each course. The responses to the questionnaire, which are shared with the speakers, enable the Academy and the speakers to know the participants expectations beforehand and, if necessary, to adjust the program accordingly.

At the end of each course, participants are required to complete an evaluation questionnaire prepared by WIPO or by the partner institution. The answers to the questionnaire are treated in strict confidence. They serve as a basis to assess the various courses and to improve them in future. There will also be follow-up evaluation surveys (e.g. six to 12 months after the course), providing feedback to WIPO on the way in which the participants are applying the knowledge acquired during the courses. This helps to determine the impact of the courses offered to Member States.

9. Attendance

Regular attendance is mandatory throughout the training period. WIPO reserves the right to terminate the fellowship of any participant who fails to meet this requirement.

10. Accompanying persons

Participants are requested not to bring any accompanying persons to the courses. WIPO will not take any responsibility or incur administrative costs or take any action (e.g., make travel arrangements, provide a subsistence allowance, arrange entry visas or insurance, etc.) for such persons. Arrangements made for the participants by WIPO and/or the host institutions are solely for the benefit of the participants.

11. Certificate

A certificate of participation will be awarded to participants at the end of the training program in which they have enrolled and participated to the end.

12. How to contact us

The administration of the Professional Development Program may be contacted for any inquiry by e-mail at *pdp@wipo.int*

Applicants are advised to apply and attach all of the required documents online. CVs or recommendation letters attached to an e-mail will not be accepted.

1. WIPO Training Course on Collective Management of Copyright and Related Rights, Ouagadougou (Burkina Faso)

Introduction	This training course is offered by WIPO jointly with the Burkinabé Copyright Office (BBDA) for the benefit of officers from collective management organizations (CMOs).
Why the course is offered	<p>The aim of the course is to enhance the skills of officers from CMOs to better manage their work and the distribution of royalties to stakeholders using new available techniques.</p> <p>At the end of the course, participants will be able to implement new techniques used by the CMOs to collect and distribute royalties to stakeholders.</p>
Program highlights	<ul style="list-style-type: none"> • General principles of copyright at the national, regional and international levels <ul style="list-style-type: none"> – Introduction to copyright and related rights and their history in Africa – International legal framework of copyright and related rights – National country reports • Management of copyright and related rights in Africa: Institutional changes and challenges <ul style="list-style-type: none"> – Challenges pertaining to legal, institutional and administrative changes (a comparative study) – Changes and challenges relating to the integration and harmonization of copyright and related rights laws (case study) • Ownership, use and exploitation of copyright and related rights <ul style="list-style-type: none"> – Moral and economic rights of the author – Types of contract in the field of copyright • Collective management of copyright and related rights • Management of royalties by collective management organizations and their relations with the users of copyright and related rights <ul style="list-style-type: none"> – General principles of collective management of copyright – New model of exploitation of online contents: Collaboration opportunities and challenges arising from the emergence of cross-border licenses in Africa – Problems and challenges posed by contracting in the areas of broadcasting and management of cross-border of broadcasting rights: Legal and practical questions • Criteria, methods and legal and operational components relating to management of rights of performers and producers of phonograms <ul style="list-style-type: none"> – Definition, attachment criteria and reciprocity conditions – Exclusive rights and equitable remuneration • Management of remuneration for private copy: reality, opportunities for creators and right holders <ul style="list-style-type: none"> – Legal basis and regulatory mechanisms of remuneration for private copy – Practical modalities of implementation of remuneration for private copy by importing countries – Implementation of payment of remuneration for private copy in the context of integration of customs procedures in Africa • Duties of collective management organizations in the distribution of royalties to their members and right holders.
Language of training	French
Who should enroll	Officials of collective management organizations or copyright offices.
DL course required	The Advanced Distance Learning Course on Copyright and Related Rights (DL-201) – register at https://welc.wipo.int
Venue and date (duration)	Ouagadougou (Burkina Faso), one week in February 2019.
Deadline for registration	For updates, please visit the WIPO Academy website: www.wipo.int/academy/en/courses/professional_training

2. WIPO-OEPM Training Course on Trademark Procedures for Latin American Countries, Madrid (Spain)

Introduction	This training course is offered by WIPO jointly with the Spanish Patent and Trademark Office (OEPM) for the benefit of trademark examiners from Latin American countries.
Why the course is offered	<p>The course is offered to enhance the skills and knowledge of trademark examiners from Latin American countries in the examination of trademark applications for registration.</p> <p>At the end of the course, participants will be aware of new registration issues in addition to procedural matters in the field of trademarks.</p>
Program highlights	<ul style="list-style-type: none"> • Overview of OEPM • Registration procedure for marks • Formal examination of trademarks • Relative grounds of refusal of registration of marks, including practical cases • Absolute grounds for refusal of registration of marks, including practical cases • The Madrid System • Procedure for the transfer of international trademarks • The Nice classification • The Vienna classification • Opposition and administrative review • Designs – national and international protection • Geographical indications • Authentication and collective marks • EU trademarks
Language of training	Spanish.
Who should enroll	Trademark examiners from Latin American countries.
DL course required	The Advanced Distance Learning Course on Trademarks, Industrial Designs and Geographical Indications (DL-302) – register at https://welc.wipo.int
Venue and date (duration)	Madrid (Spain), one week in February 2019.
Deadline for registration	For updates, please visit the WIPO Academy website: www.wipo.int/academy/en/courses/professional_training

3. WIPO-WTO Advanced Course on Intellectual Property for Government Officials, Geneva (Switzerland)

Introduction	This advanced course is offered by WIPO jointly with the World Trade Organization (WTO) for the benefit of developing countries and countries with economies in transition.
Why the course is offered	<p>The course is offered to enhance skills and keep government officials informed about emerging intellectual property (IP) issues currently debated in WIPO and WTO, to provide a forum for discussion of IP issues and to illustrate the importance of IP to capacity building and national development.</p> <p>At the end of the course, participants will be familiar with current IP issues and challenges in the fields of patents, trademarks, copyright and global IP.</p>
Program highlights	<ul style="list-style-type: none"> • IP and public policy in developing countries today • IP in a trade law context and developing countries • IP and economic development • Copyright: the current international landscape – legal, policy and development dimensions • Trademarks and industrial designs: the current international landscape – legal, policy and development dimensions • Geographical indications: the current international landscape – legal, policy and development dimensions • Patents: the current international landscape – legal, policy and development dimensions • Protection of trade secrets • Artificial intelligence (AI) issues • IP and public health: the current international landscape • WTO dispute settlement and the TRIPS Agreement • Protection of plant varieties in the International Union for the Protection of New Varieties of Plants • Transparency for policy-makers and the WTO notification system • Panel discussion: IP and public health - current debates • IP provisions in free trade agreements • IP and competition policy • Application of competition policy in relation to IP • Protection of biotechnology - new developments in law and practice • IP and genetic resources, traditional knowledge and traditional cultural expressions: the current international landscape and future directions • Relationship between the TRIPS Agreement, the Convention on Biological Diversity, and the protection of traditional knowledge and folklore: recent WTO developments • IP and business • Enforcement of IP: legal, policy and development dimensions • Panel discussion on IP and climate change – current debates
Language of training	English.
Who should enroll	Senior policy-makers involved in multilateral IP matters from relevant ministerial departments and IP offices.
DL course required	The General Distance Learning Course on IP (DL-101) – register at https://welc.wipo.int
Venue and date (duration)	Geneva (Switzerland), two weeks (one week at WIPO and one week at the WTO) in March 2019.
Deadline for registration	For updates, please visit the WIPO Academy website: www.wipo.int/academy/en/courses/professional_training

4. WIPO-KIPO Training Course on Patent Law and Examination, Daejeon (Republic of Korea)

Introduction	This training course is offered by WIPO jointly with the International Intellectual Property Training Institute (IIPTI) of the Korean Intellectual Property Office (KIPO) for the benefit of developing countries.
Why the course is offered	<p>The course is offered to enhance the technical skills of patent examiners in using online search engines to improve their performance in the substantive examination process. It will underline the importance of patent search and examination in a specific field of research.</p> <p>At the end of the course, participants will be able to search prior art through existing online search engines and conduct a proper substantive examination.</p>
Program highlights	<ul style="list-style-type: none"> • Panorama of the patent system and its current issues • Outline of the patent system in the Republic of Korea • Patent application and substantive examination procedure • Patentable and non-patentable subject matter, including exercises • Claim analysis, including exercises • Novelty and industrial applicability, including exercises • Assessment of inventive step • Unity of invention, including exercises • PCT system • International patent classification, including exercises • Understanding of cooperative patent classification • Patent search basics: Tools and databases, including exercises • Searching non-patent literature • Strategic use of patent work-sharing tools, including exercises • Overview of patent quality and its control mechanisms • Patent quality issues and challenges • Patent appeal and trial system • Patent litigation system • On-the-job training • Patent examination of biological and pharmaceutical inventions • Patent examination of software invention and business method
Language of training	English.
Who should enroll	Patent examiners.
DL course required	The Advanced Distance Learning Course on Patents (DL-301) – register at https://welc.wipo.int
Venue and date (duration)	Daejeon (Republic of Korea), 10 days in March 2019.
Deadline for registration	For updates, please visit the WIPO Academy website: www.wipo.int/academy/en/courses/professional_training

5. WIPO-NIPO Patent Quality Program, Oslo (Norway)

Introduction	<p>This program is offered jointly by WIPO and the Norwegian Industrial Property Office (NIPO), with the assistance of the Norwegian Ministry of Foreign Affairs, for the benefit of developing countries.</p> <p>The Patent Quality Program is a project-based and mentored program and its objective is to contribute to the development of infrastructure and competence for driving local innovation and economic growth.</p> <p>Each participant shall initiate and implement a project with a patent quality dimension. The particularity of this program is that individual learning relating to patent quality is combined with practical experience and the tangible outcomes of a project.</p>
Why the course is offered	<p>The program is offered to enhance the skills of senior officials in emphasizing the importance of patent quality. The program offers a forum for discussion on patent quality issues with international experts and other participants.</p> <p>At the end of the program, participants will be able to implement projects pertaining to patent quality in their own countries, and will have an in-depth perspective on patent quality issues and project management experience.</p>
Program highlights	<p>The overall program is organized in four phases.</p> <p>Phase 1, the application and preparation phase, includes identification and description of possible projects based on an inventory of needs and challenges in the participants' respective national intellectual property (IP) offices. The objectives of this phase are to make the necessary preparations and to present the project of choice according to the established criteria to the organizers for selection.</p> <p>Phase 2 includes a two-week session in Oslo focusing on a number of patent quality-related issues, for example quality policy-making and practices, business improvement and project management, patent search and examination, quality management systems, legal perspectives, user perspectives, commercial aspects and technical perspectives. The objective of this phase is to enhance the project plan for implementation <i>in situ</i>. Mentors will be assigned.</p> <p>Phase 3 is the implementation phase during which participants are expected to implement their projects in their offices. Dialogue with the mentors has been factored into this phase.</p> <p>Phase 4 will consist of a follow-up, normally one-week, session in a developing country, with the main objective of reviewing the status or completion of the projects developed and implemented by the participants.</p>
Language of training	English.

Who should enroll	<p>Management or senior officials of patent offices or relevant government bodies.</p> <p>Before the program begins, each applicant must make an inventory of needs and challenges in their IP offices, and initiate a project with a patent quality dimension. The application shall include a draft description of the project of choice, with the application to include the project title, present situation and desired future.</p> <p>Mandatory items</p> <ol style="list-style-type: none"> 1. Project title. 2. Present situation: the context and the needs to be addressed by the project (baseline). 3. Desired future: the objectives and expected results of the project. 4. Approach to measurement/assessment of results relating to the baseline given in the “present situation”. <p>Optional items</p> <ol style="list-style-type: none"> 1. Organizational chart showing project personnel and roles. 2. Progress plan showing activities and milestones in a time schedule. 3. Budget, available funding and spending plan. 4. Risk analysis. <ul style="list-style-type: none"> – Each project may have one or two participants from the same country, one of whom shall be a project manager. – Applicants may, if needed, respond to supplementary questions before the final selection. – Participation in all phases is mandatory.
DL course required	The Advanced Distance Learning Course on Patents (DL-301) – register at https://welc.wipo.int
Venue and date (duration)	<p>Phase 1. The home country; preparation must be completed before the registration deadline.</p> <p>Phase 2. Oslo mission (two weeks, March to April, 2019).</p> <p>Phase 3. The home country (April to December, 2019).</p> <p>Phase 4. Follow-up session in a developing country (one week, December 2 to 6, 2019).</p>

Deadline for registration	For updates, please visit the WIPO Academy website: www.wipo.int/academy/en/courses/professional_training

19. WIPO-NIPO Training Course on Patent Procedures, Oslo (Norway)

Introduction	This training course is offered by WIPO jointly with the Norwegian Industrial Property Office (NIPO) for the benefit of patent examiners.
Why the course is offered	<p>The course is offered to enhance patent examiners' skills relating to key issues of patent procedures.</p> <p>The Training Course on Patent Procedures has an objective to contribute to development of competence for driving local innovation and economic growth. At the end of the course, participating patent examiners will be able to carry out patent searches and examinations with existing online search resources. Participants will be able to produce higher quality examinations of patent applications, and will have an understanding of patent issues.</p>
Program highlights	<p>General items</p> <ul style="list-style-type: none"> • Purpose of the patent system • Patent quality • International legal framework of patents • Patent Cooperation Treaty (PCT) • Electronic filing and case handling <p>Special items</p> <ul style="list-style-type: none"> • Green technology • Biotechnology • Software patenting <p>Patent examination</p> <ul style="list-style-type: none"> • Introduction to patent examination • Patent search, PCT minimum documentation • Data based search using free databases • Assessing of patentability • Assessing novelty and inventive step
Language of training	English.
Who should enroll	Patent examiners.
DL course required	The Advanced Distance Learning Course on Patents (DL-301) – register at https://welc.wipo.int
Venue and date (duration)	Oslo (Norway), one week in October 2019.
Deadline for registration	For updates, please visit the WIPO Academy website: www.wipo.int/academy/en/courses/professional_training

20. WIPO-CNIPA Training Course on Management and Commercialization of Intellectual Property Assets, People's Republic of China

Introduction	This training course is offered jointly by WIPO and the People's Republic of China's National Intellectual Property Administration (CNIPA), with the assistance of the People's Republic of China Intellectual Property Training Center (CIPTC).
Why the course is offered	<p>The course is offered to enhance skills of officers from research and development (R&D) institutions and relevant public entities who deal with the management of intellectual property (IP) development. It aims to help them to understand the different steps that lead to the efficient commercialization of IP assets, offering insights into the pathway of successful innovation from initial idea to commercialization.</p> <p>At the end of the training course, participants will know how to use techniques to manage, value and commercialize IP assets effectively.</p>
Program highlights	<ul style="list-style-type: none"> • Government's role in promoting IP innovation and development: The Chinese experience • Fundamentals of innovation: Technological and non-technological innovations • Local innovation hub • IP management as a growth strategy for business success: The Chinese experience • National experience of technology management: A Chinese case • Workshop on university–industry partnership: Innovation and technology transfer • Specific features of IP marketing • IP audits and accounting: A practical approach • Workshop on IP branding • IP valuation: A practical approach • IP commercialization strategies for entrepreneurs and small and medium-sized enterprises (SMEs) in Asia • Workshop and simulation exercises on IP licensing and commercialization • Open source technology, open access and open transfer
Language of training	English.
Who should enroll	<ul style="list-style-type: none"> • Officers from public entities dealing with IP management and/or commercialization. • Officials from relevant ministries in charge of IP management or the transfer of technology.
DL course required	The Advanced Distance Learning Course on IP Management (DL-450) – register at https://welc.wipo.int
Venue and date (duration)	The People's Republic of China, one week in October 2019.
Deadline for registration	For updates, please visit the WIPO Academy website: www.wipo.int/academy/en/courses/professional_training

21. WIPO-India Training Course on Patent Search and Examination for Asian Countries, Delhi (India)

Introduction	This training course is organized by WIPO in cooperation with the Rajiv Gandhi National Institute of Intellectual Property Management (RGNIPM) for the benefit of patent examiners from the Asia and Pacific (ASPAC) Region.
Why the course is offered	<p>The course is offered to enhance the technical skills and knowledge of patent examiners from the ASPAC Region in the use of online patent search engines and to equip patent examiners with new patent examination techniques for a better assessment of patent applications in chemical and allied fields.</p> <p>At the end of the course, participants will be able to search and examine inventions in a defined patent field using publicly available online tools, and to assess novelty and inventive step concerning inventions in chemical and allied fields.</p>
Program highlights	<ul style="list-style-type: none"> • Patent examination procedure in India • Patent Cooperation Treaty (PCT) • International patent classification and exercises • Introduction to patent searching techniques • Assessment of novelty (exercise) • Assessment of novelty in chemical and allied fields • Assessment of inventive step (exercise) • Assessment of inventive step in chemical and allied fields • Assessment of industrial application (exercise) • Assessment of industrial application in chemical and allied fields. • Assessment of unity of invention (exercise)
Language of training	English.
Who should enroll	Patent examiners from the ASPAC Region.
DL course required	The Advanced Distance Learning Course on Patents (DL-301) – register at https://welc.wipo.int
Venue and date (duration)	Delhi (India), one week in November 2019.
Deadline for registration	For updates, please visit the WIPO Academy website: www.wipo.int/academy/en/courses/professional_training

22. WIPO-KIPO Training Course on Trademark Law and Examination, Daejeon (Republic of Korea)

Introduction	This training course is offered by WIPO jointly with the International Intellectual Property Training Institute (IIPTI) of the Korean Intellectual Property Office (KIPO) for the benefit of developing countries.
Why the course is offered	<p>The course is offered to enhance the skills and knowledge of trademark officials from intellectual property (IP) offices, relevant public institutions and ministries, through the examination of trademark issues and procedures.</p> <p>At the end of the course, participating trademark officials will be familiar with current issues in the field of trademarks.</p>
Program highlights	<ul style="list-style-type: none"> • Panorama of current trademark issues • KIPO and IP trial and Appeal Board • Trademark system in the Republic of Korea • Distinctiveness and requirements for registering a trademark – Classifications of marks/secondary meaning • International trademark landscape • Madrid System • Nice and Vienna Classifications • The trademark/design/copyright interface • Likelihood of confusion • Well-known marks • Case studies on 3D marks • Non-traditional marks: Current issues • Trademarks and the Internet: Current issues • Similarity of mark and goods/services • Geographical indications in the promotion of national products • Opposition to marks • Trademark appeal, trial and litigation system in Korea • Practical exercises and case studies on trademark examination
Language of training	English.
Who should enroll	Trademark examiners.
DL course required	The Advanced Distance Learning Course on Trademarks, Industrial Designs and Geographical Indications (DL-302) – register at https://welc.wipo.int
Venue and date (duration)	Daejeon (Republic of Korea), eight days in November 2019.
Deadline for registration	For updates, please visit the WIPO Academy website: www.wipo.int/academy/en/courses/professional_training

23. WIPO-CNIPA Training Course on Trademarks (People's Republic of China)

Introduction	This training course is offered jointly by WIPO and the China National Intellectual Property Administration (CNIPA), with the assistance of the China IP Training Center (CIPTC).
Why the course is offered	<p>The course is offered to enhance the skills and knowledge of trademark officials from intellectual property (IP) offices, relevant public institutions and ministries through examination of trademark issues and procedures.</p> <p>At the end of the course, participating trademark officials will be familiar with current issues in the field of trademarks.</p>
Program highlights	<ul style="list-style-type: none"> • Panorama of current trademark issues • The trademark system in China • Distinctiveness and requirements for registering a trademark – classifications of marks / secondary meanings • The international trademark landscape • Madrid system • Nice and Vienna classifications • Interface among trademarks, designs and copyright • Likelihood of confusion • Well-known marks • Case studies on 3D marks • Non-traditional marks: Current issues • Trademarks and the Internet: Current issues • Similarity of mark and goods/services • Geographical indications in the promotion of national products • Opposition to marks • The trademark appeal, trial and litigation system in China • Practical exercises and case studies on trademark examination
Language of training	English.
Who should enroll	Trademark examiners and trademark officers from relevant Ministries.
DL course required	The Advanced Distance Learning Course on Trademarks, Industrial Designs and Geographical Indications (DL-302) – register at https://welc.wipo.int
Venue and date (duration)	Beijing (People's Republic of China), one week in November 2019.
Deadline for registration	For updates, please visit the WIPO Academy website: www.wipo.int/academy/en/courses/professional_training

Distance Learning Program

General Information on the Distance Learning Program

1. Objectives

By harnessing technology to facilitate the delivery of academic programs remotely, the WIPO Academy's Distance Learning Program aims to increase the accessibility of intellectual property (IP) knowledge on a global scale, making it available to all, irrespective of geographic location, socio-economic background, industry sector or language group.

2. Background

In 1999, the WIPO Academy adopted distance learning (DL) as an innovative teaching approach, investing in the potential of the Internet to expand its educational mandate. Since its launch, approximately 550,000 people worldwide have taken one or more WIPO DL course.

3. Field and scope of training

The WIPO Academy has placed considerable emphasis on incorporating teaching methodologies and pedagogies that complement the e-learning process, namely the Bloom Method. The Bloom Method is a learning technique rooted in cognitive behavioral psychology through which people learn by “remembering, understanding, applying, analyzing, evaluating and creating”. The instructional design of the course content is based on the Open University of the United Kingdom where “you teach, you ask, you assess and you evaluate” the learner's ability to apply and perform tasks at different intervals. The combined use of these two systems facilitates effective transfer of information and knowledge between teachers and learners in the virtual environment.

The WIPO Academy networks with other institutions involved in IP teaching through the DL Program in order to combine substantive knowledge and pedagogical expertise in the design and development of the courses. Partnerships with universities around the world enable the WIPO Academy to identify core groups of experts to serve as authors providing and enhancing the content of the courses with regional and national teaching materials.

The courses offered through DL include self-paced general courses, tutor-led advanced courses and courses that combine both online education and face-to-face training (i.e. blended learning). The WIPO Academy DL courses cover all aspects of IP. Learners and teachers can interact as often as necessary during the courses because communication takes place through online discussion forums and electronic mail. Teachers have their own interaction tools, which allow them to correct

examinations and support any difficulties that learners may face during the course.

The WIPO Academy is the only institution that offers online courses in IP in more than seven languages with a suite of learner support. A unique feature of WIPO's DL Program is the focus on language diversity and on-line academic and administration support. The Primer (DL-001), the General Course on IP (DL-101) and most of the advanced courses are now available in the six official languages of the United Nations (Arabic, Chinese, English, French, Russian and Spanish) and in Portuguese, with translation into other languages under way.

The self-paced general courses include:

- The Primer on Intellectual Property (DL-001)
- General Course on Intellectual Property (DL-101), also made available in an accessible format for the blind, visually impaired or otherwise print disabled
- Introduction to the Patent Cooperation Treaty (DL-101-PCT)
- IP Panorama (DL-IP PANORAMA)
- Essentials of Copyright and Related Rights (DL-150)
- Essentials of Trademarks, Industrial Designs and Geographical Indications (DL-160)
- Essentials of Patents (DL-170)

The tutor-led advanced courses include:

- Advanced Course on Copyright and Related Rights (DL-201)
- Advanced Course on Intellectual Property, Traditional Knowledge and Traditional Cultural Expressions (DL-203)
- Introduction to the UPOV System of Plant Variety Protection (DL-205-UPOV)
- Advanced Course on Patents (DL-301)
- Advanced Course on Trademarks, Industrial Designs and Geographical Indications (DL-302)
- Advanced Course on Examination of Applications for Plant Breeders' Rights (DL-305-UPOV)
- Advanced Course on Arbitration and Mediation Procedure under the WIPO Rules (DL-317)
- Advanced Course on Patent Information Search (DL-318)
- Advanced Course on the Basics of Patent Drafting (DL-320)
- Advanced Course on Intellectual Property Management (DL-450)
- Advanced Course on Collective Management of Copyright and Related Rights for Legal Practitioners (DL-501)

- Advanced Course on Collective Management of Copyright and Related Rights for Rights Holders (DL-502)
- Advanced Course on Collective Management of Copyright and Related Rights for Collective Management Organizations (DL-503)
- Advanced Course on Collective Management of Copyright and Related Rights for Policy-Makers (DL-506)
- Advanced Course on Software Licensing, Including Open Source (DL-511)
- Executive Course on Promoting Access to Medical Technologies and Innovation (DL-701)
- Intellectual Property for Teachers of the Young (IP4Teachers)

The blended learning courses comprising online education and face-to-face training are:

- Advanced International Certificate Course on IP Asset Management (AICC)
- IP-Impact Certificate Course – Certificate on General Knowledge of IP for Teachers (IPCC)
- Intellectual Property and the Life Sciences for Participants in the L'Oréal-UNESCO For Women in Science Programme

Continuing judicial education on Intellectual Property

- The General Course on IP for Judges (DL-JD101)

The new pilot courses are:*

- Advanced Course on Copyright for Film Professionals
- Enforcement of Intellectual Property Rights (DL-303)
- Introduction to the Madrid System (DL-MADRID)

*Pilot courses are not open for regular offering.

4. Teaching

All of the above-mentioned specialized and advanced level courses are supported by in-house tutors and some 300 external expert practitioners in the field of IP.

5. Course syllabi

Each of the courses is divided into modules, which are preceded by a list of learning outcomes. The learning outcomes provide the details of the competencies that participants should aim to achieve on completion of the relevant module. Self-assessment tools are strategically placed within each module to help learners to gauge their levels of knowledge and progress and their ability to apply concepts and facts presented throughout the course.

6. Dynamic teaching on current IP issues and learner needs

Courses are adapted to learners' dynamic needs and include cases, landmark decisions and treaties in the relevant field.

7. Target audience

The WIPO Academy's DL courses are available to a variety of end users, from professionals in the field to creators and those with a general interest in IP. In addition to employees of IP offices, groups such as lawyers, patent agents, engineers, artists, performers, economists, journalists, business owners and university students can benefit from the Academy's tailor-made courses, which address general and specific IP issues.

In line with WIPO's commitments to accessibility, the Academy will officially introduce Accessible Intellectual Property Training (AIPT) courses within the DL Program for individuals who are blind, visually impaired or otherwise print disabled. The General Course on Intellectual Property (DL-101) is now available in an accessible format in all of the United Nations languages (Arabic, Chinese, English, French, Russian and Spanish) and in Portuguese. Other advanced courses will gradually become available in accessible format.

8. Partner institutions

Following increased demand for IP knowledge from the Academy's Chinese target audience, and to facilitate the corresponding high-volume access to the DL courses, a Cooperation Agreement was signed in 2016 between the Academy and the China Intellectual Property Training Center (CIPTC) of the State Intellectual Property Office of China (SIPO). As from 2017, the Chinese version of the DL courses has been offered from within China, with the same standards as the Academy's DL courses in the other five United Nations languages.

Similarly, the WIPO Academy signed a Memorandum of Understanding with the National Institute of Industrial Property of Brazil (INPI-Brazil) in 2017, transferring the management and administration of the Academy's Portuguese industrial property distance learning courses to INPI-Brazil.

9. Registration

The registration process is facilitated by the Academy Registration and Payment Interface (ARPI), an electronic system that enables prospective students to enroll in courses and monitor the status of their applications.

10. Evaluation

The student evaluation process for the DL program is designed to test students' abilities to apply facts and concepts taught throughout the course. It includes a single final examination (which may be a written essay or multiple-choice questions) that is administered to participants through the WIPO Academy learning management platform.

Students are permitted to complete the final examination across a range of timeframes that vary from five hours to ten days, depending on the course, before uploading their answers through the learning management system for grading by their assigned tutors.

11. Tuition and fees

All self-paced general courses are available free of charge. Registration fees for advanced courses are determined by the participant's country of nationality according to schedule below.

Students	
Developing countries and countries in transition	40 US dollars
Industrialized countries	200 US dollars
Professionals	
Developing countries and countries in transition	60 US dollars
Industrialized countries	320 US dollars
Academics	
Developing countries and countries in transition	40 US dollars
Industrialized countries	200 US dollars
Government officials (including IP offices)	
Developing countries and countries in transition	free of charge
Industrialized countries	200 US dollars

For an up-to-date list of developing countries and countries in transition whose nationals are eligible for reduced fees, see the WIPO Academy website:
www.wipo.int/academy/en/courses/distance_learning/country_list.html

Self-paced General Distance Learning Courses

1. The Primer on Intellectual Property (DL-001)

Description	<p>This “primer” course aims to provide participants with knowledge of the fundamental aspects of intellectual property (IP): copyright and related rights, trademarks, patents, geographical indications and industrial designs. It introduces contemporary issues impacting the IP field such as new plant varieties, unfair competition, enforcement of IP rights and emerging issues in IP.</p> <p>Self-evaluation tools are strategically incorporated throughout each of the 12 modules to help participants to gauge their level of knowledge and test their ability to apply concepts and key facts taught during the course.</p>
Content and structure	<p>The course includes 12 modules designed to help participants to build their knowledge of general IP concepts step by step.</p> <ul style="list-style-type: none"> • Module 1: Introduction to IP • Module 2: Overview of IP • Module 3: Copyright • Module 4: Related rights • Module 5: Trademarks • Module 6: Geographical indications • Module 7: Industrial designs • Module 8: Patents • Module 9: New plant varieties • Module 10: Unfair competition • Module 11: Enforcement of IP rights • Module 12: Emerging issues in IP – IP and development
Final exam	<p>There is no final examination for this course. Each module has a self-assessed set of questions encouraging the learner to enroll in the next level course, the General Course on Intellectual Property (DL-101).</p>
Duration	<p>Participants can work through the course material at a pace that suits them. It is estimated that the course material can be reviewed in approximately three hours.</p>
Target audience	<p>This course targets individuals seeking to obtain a general overview of the fundamentals of IP.</p>
Registration	<p>Information on registration periods and enrollment is available at https://wcl.wipo.int/acc</p>
Language of instruction	<p>The course is currently offered in all six official languages of the United Nations (Arabic, Chinese, English, French, Russian and Spanish) and in Portuguese.</p>
Tuition fees	<p>This course is offered free of charge.</p>

2. The General Course on Intellectual Property (DL-101)

This course is available in an accessible format for the blind, visually impaired or otherwise print disabled.

Description	<p>This course builds on the concepts presented in the Primer on Intellectual Property (DL-001). It provides participants with a more in-depth overview of the fundamentals of intellectual property (IP) law, and is indispensable for the more advanced courses of study on specific areas of IP law.</p> <p>Self-assessment tools are strategically placed throughout each module to help participants to gauge their level of knowledge and progress, and their ability to apply the concepts and facts presented within the course.</p>
Content and structure	<p>The course includes 12 modules, at the end of which there is a final examination.</p> <ul style="list-style-type: none"> • Module 1: Introduction to IP • Module 2: Copyright • Module 3: Related rights • Module 4: Trademarks • Module 5: Geographical indications • Module 6: Industrial designs • Module 7: Patents • Module 8: WIPO treaties • Module 9: Unfair competition • Module 10: Protection of new varieties of plants • Module 11: Summary and discussion on IP rights • Module 12: IP and development – The WIPO Development Agenda • Final examination
Teaching	Academic support is provided throughout the course; learners may pose substantive questions to tutors online.
Online discussions and assignments	Using the Academy's enhanced learning platform, experienced tutors/IP experts discuss landmark cases with participants. Special group projects will be launched on topics in which the participants show a high level of interest and engagement.
Final exam	<p>The final examination for this course includes a series of multiple-choice questions. Participants have a fixed amount of time in which to complete and submit the examination online.</p> <p>Participants will receive details on how to access the examination approximately one week before the deadline for completing the course.</p>
Certificate	Participants who pass the final examination will be awarded an electronic certificate of course completion.
Duration	The course is taught over a period of six weeks. It is estimated that the course material can be reviewed in approximately 55 hours during that six-week period.
Target audience	This course is designed for people who are or will be employed in the field of administration of intellectual property rights (IPRs). It is relevant to people seeking a general knowledge of IP and to those who generate various forms of IP and seek a deeper understanding of effective IPR management and protection.
Registration	Information on the registration periods and enrollment is available at https://welc.wipo.int
Language of instruction	<p>The course is offered in all six official languages of the United Nations (Arabic, Chinese, English, French, Russian and Spanish) and in Portuguese. Other language versions such as Bulgarian, Cambodian, Croatian, Georgian, Thai and Vietnamese are offered by the relevant national IP office.</p> <p>DL-101 is also offered in the six official languages of the United Nations and Portuguese in an accessible format for the blind, visually impaired or otherwise print disabled.</p>
Tuition fees	This course is offered free of charge.

3. A General Primer – Introduction to the Patent Cooperation Treaty (DL-101-PCT)

Description	This specialist foundation course has been developed by WIPO experts on the Patent Cooperation Treaty (PCT). It aims to provide participants with an introduction and general overview of the PCT, the system that facilitates the international registration of patents. It is designed for self-directed learning, with participants working through the course material at their own pace. Self-assessment tools are strategically placed throughout each module to help participants to gauge their levels of knowledge and progress and their ability to apply the concepts and facts presented within the course.
Content and structure	The course includes 14 modules. <ul style="list-style-type: none"> • Module 1: What is the PCT? • Module 2: Why use the PCT? • Module 3: Preparing a PCT application • Module 4: Filing a PCT application • Module 5: PCT electronic services • Module 6: Patent agents and common representatives • Module 7: The international search report and written opinion of the ISA • Module 8: International publication • Module 9: International preliminary examination • Module 10: Entry into the national phase • Module 11: Special international phase procedures • Module 12: Procedures for inventions in the field of biotechnology • Module 13: Access by third parties to the file of a PCT application • Module 14: PCT outlook
Final exam	This course includes formal questions that measure the achievement of the learning outcomes, but there is no final examination.
Certificate	An electronic certificate may be generated upon successful completion of the course questions.
Duration	Participants can work through the course material at a pace that suits them. It is estimated that the course material can be reviewed in approximately three hours.
Target audience	This course is open to any individual wishing to obtain a general understanding of the PCT System.
Registration	Information on registration periods and enrollment is available at https://welc.wipo.int
Language of instruction	The course offered in all six official languages of the United Nations (Arabic, Chinese, English, French, Russian and Spanish) and in German, Japanese, Korean and Portuguese.
Tuition fees	This course is offered free of charge.

4. Intellectual Property Panorama (DL-IP PANORAMA)

Description	<p>The DL-IP PANORAMA course was designed to help small and medium-sized enterprises (SMEs) to utilize and manage intellectual property (IP) in their business strategies. It was developed jointly by the Korean Intellectual Property Office (KIPO), the Korea Invention Promotion Association (KIPA) and WIPO under a project entitled “The Joint Development of E-learning Content”, and has since been translated into several languages.</p> <p>IP PANORAMA teaches IP from a business perspective, focusing especially on the situation of SMEs. It is based on the instructional design strategy of storytelling supported by educational technology. The learning content of each module is designed around a practical IP story.</p>
Content and structure	<p>The course includes the following 13 modules:</p> <ul style="list-style-type: none"> • Module 1: Importance of IP for SMEs; • Module 2: Trademarks and industrial designs; • Module 3: Inventions and patents; • Module 4: Trade secrets; • Module 5: Copyright and related rights; • Module 6: Patent information; • Module 7: Technology licensing in a strategic partnership; • Module 8: IP in the digital economy; • Module 9: IP and international trade; • Module 10: IP audit; • Module 11: Valuation of IP assets; • Module 12: Trademark licensing; • Module 13: IP issues in franchising.
Final exam	There is no final examination for this course.
Certificate	There is no certificate at the end of this course.
Duration	Participants can work through the course material at a pace that suits them. It is estimated that the course material can be reviewed in approximately 20 hours.
Target audience	This course targets individuals seeking to obtain a general overview of the fundamentals of IP, particularly employees in the enterprise sector and university students who wish to increase their awareness of using IP for business success.
Registration	Information on registration periods and enrollment is available at https://welc.wipo.int
Language of instruction	IP PANORAMA is currently offered in Arabic, English, French and Spanish. Languages will in future include Chinese, Portuguese, Russian and others.
Tuition fees	This course is offered free of charge.

5. Essentials of Copyright and Related Rights (DL-150)

Description	The General Course on the Essentials of Copyright and Related Rights (DL-150) is designed as a preparatory course to precede practical training in copyright and related rights. It briefly explains the fundamental principles of copyright and related rights protection and the relevant international treaties.
Content and structure	This course includes the following topics, final questions and an audiovisual PowerPoint summary: <ul style="list-style-type: none"> • the concept of copyright; • principles and notions of works; • content protection – rights and limitations; • the TRIPS Agreement and the WIPO Copyright Treaty; • related rights: The Rome Convention, the WIPO Performances and Phonograms Treaty (WPPT), and the Beijing Treaty; • the TRIPS Agreement and enforcement issues; • copyright on the Internet; • intellectual property and development – flexibilities and public domain under copyright and the Marrakesh Treaty; • final questions; • PowerPoint summary.
Teaching and final exam	This course is offered for self-directed study and includes formal tests that allow participants to gauge their knowledge and understanding at various points in the course.
Certificate	An electronic certificate is generated upon successful completion of the final questions.
Duration	Participants can work through the course material at a pace that suits them. It is estimated that the course material can be reviewed in approximately 10 to 12 hours.
Target audience	The course is designed for participants who plan to attend further training to develop fully their knowledge of copyright and related rights. It is useful to busy professionals who want to review in brief the essential elements of copyright and related rights. It is strongly recommended that prospective participants complete the General Course on Intellectual Property (DL-101) before taking up this course.
Registration	Information on registration periods and enrollment is available at https://welc.wipo.int
Language of instruction	The course will be offered in English only on a pilot basis. In 2019, it will be translated into Arabic, Chinese, French, Portuguese, Russian and Spanish.
Tuition fees	This course is offered free of charge.

6. Essentials of Trademarks, Industrial Designs and Geographical Indications (DL-160)

Description	The General Course on the Essentials of Trademarks, Industrial Designs and Geographical Indications (DL-160) aims to build basic knowledge of the principles of trademarks, industrial designs and geographical indications, including how these rights could be utilized in business branding strategies. It is a preparatory course designed to precede practical training in the protection of trademarks, industrial designs and geographical indications.
Content and structure	This course includes the following topics, a final set of questions and an audiovisual PowerPoint summary: <ul style="list-style-type: none"> • trademarks, industrial designs and geographical indications in the market; • trademarks and making brands; • geographical indications; • industrial designs; • protection against unfair competition; • managing brands; • IP and development – flexibilities and public domain under trademarks; • final set of questions; • PowerPoint summary.
Teaching and final exam	This course is offered for self-directed study and includes formal tests that allow participants to gauge their knowledge and understanding at various points in the course.
Certificate	An electronic certificate may be generated upon successful completion of the final set of questions.
Duration	Participant can work through the course material at a pace that suits them. It is estimated that the course material can be reviewed in approximately 10 to 12 hours.
Target audience	The course is designed for participants who plan to attend further training to develop fully their knowledge of trademarks, industrial designs and geographical indications. It is useful to busy professionals who want to review in brief the essential elements of these intellectual property rights. It is strongly recommended that prospective participants complete the General Course on Intellectual Property (DL-101) before taking up this course.
Registration	Information on registration periods and enrollment is available at https://welc.wipo.int
Language of instruction	The course will be offered in English only on a pilot basis. In 2019, it will be translated into Arabic, Chinese, French, Portuguese, Russian and Spanish.
Tuition fees	This course is offered free of charge.

7. Essentials of Patents (DL-170)

Description	The General Course on the Essentials of Patents (DL-170) aims to describe briefly the principles and economic impact of patents and the international patenting process. It provides participants with a review of the importance of patents in facilitating the effective transfer and development of technology. It is a preparatory course designed to precede practical training in protection under patents.
Content and structure	This course includes the following topics, a final set of questions and an audiovisual PowerPoint summary: <ul style="list-style-type: none"> • the international patent system and its macroeconomic impact; • the patent application process; • kinds of intellectual property protection based on types of inventions; • legal issues of the patenting process; • enforcement; • intellectual property and development – flexibilities and public domain under patents; • final set of questions; • PowerPoint summary.
Teaching and final exam	This course is offered for self-directed study and includes formal tests that allow participants to gauge their knowledge and understanding at various points in the course.
Certificate	An electronic certificate may be generated upon successful completion of the final set of questions.
Duration	Participants can work through the course material at a pace that suits them. It is estimated that the course material can be reviewed in approximately 10 to 12 hours.
Target audience	The course is designed for participants who plan to attend further training to develop their knowledge of patents to the full. It is useful to busy professionals who want to review in brief the essential elements of patent rights. It is strongly recommended that prospective participants complete the General Course on Intellectual Property (DL-101) before taking up this course.
Registration	Information on registration periods and enrollment is available at https://welc.wipo.int
Language of instruction	The course will be offered in English only on a pilot basis. In 2019, it will be translated into Arabic, Chinese, French, Portuguese, Russian and Spanish.
Tuition fees	This course is offered free of charge.

Tutor-led Advanced Distance Learning Courses

8. Advanced Course on Copyright and Related Rights (DL-201)

Description	This advanced course explains the fundamental principles of international copyright and related rights protection, including a comprehensive overview of the relevant international treaties. It addresses the collective management of rights and deals with issues of copyright and related rights in the digital environment.
Content and structure	The course includes 12 substantive modules and a final examination. <ul style="list-style-type: none"> • Module 1: The concept of copyright: Historical background and the international framework • Module 2: The Berne Convention: Principles and notions of works • Module 3: The Berne Convention: Content protection – rights and limitations • Module 4: The Berne Convention: Special types of works and situations • Module 5: The TRIPS Agreement and the WIPO Copyright Treaty • Module 6: Related rights: The Rome Convention, the WIPO Performances and Phonograms Treaty (WPPT), the Beijing Treaty • Module 7: <i>Sui generis</i> regimes of protection, <i>sui generis</i> rights and unfair competition • Module 8: The TRIPS Agreement and enforcement issues • Module 9: Collective management of rights • Module 10: Copyright on the Internet • Module 11: The Marrakesh Treaty • Module 12: Intellectual property and development – flexibilities and public domain under copyright • Final examination
Teaching	Academic support is provided throughout each module by experienced tutors who are expert practitioners in the field of intellectual property (IP).
Online discussions and assignments	Using the Academy's enhanced learning platform, experienced tutors/IP experts discuss landmark cases with participants. Special group projects will be launched by the Academy and its tutors on issues in which the participants show a high level of interest and engagement.
Final exam	There is a written final examination for this course. Participants are required to compose written responses to a series of questions within a specified timeframe and submit their responses, using the e-learning platform, to their tutors for marking. Participants will receive details on how to access the examination approximately one week before the deadline for completing the course.
Certificate	Participants who pass the final examination will be awarded a certificate of completion for the course.
Duration	The course requires approximately 120 hours of study time over a period of 12 weeks.
Target audience	The course is designed for legal practitioners, managers in copyright offices and staff in collective management societies, broadcasting organizations or publishing industries, academics and university students with prior knowledge of IP such as those who have successfully completed the free-of-charge General Course on Intellectual Property (DL-101).
Registration	Information on registration periods and enrollment is available at https://welc.wipo.int
Language of instruction	The course is offered in Arabic, Chinese, English, French, Portuguese, Russian and Spanish.
Tuition fees	As an advanced course, DL-201 incurs registration fees – see page 40 for more details.

9. Advanced Course on Intellectual Property, Traditional Knowledge and Traditional Cultural Expressions (DL-203)

Description	This advanced course presents technical information about the intellectual property (IP) protection of traditional knowledge and traditional cultural expressions. It covers key concepts and international, regional and national experience, policy options and legal mechanisms that are already available or under consideration to provide such protection. It aims to strengthen the capacity and stimulate consideration of these issues, share experience and advance understanding of the range of issues and possible options in this area, in which legal and policy developments are still evolving at national, regional and international levels.
Content and structure	This course includes four substantive modules and a final examination. <ul style="list-style-type: none"> • Module 1: Overview and key concepts • Module 2: Options for the IP protection of traditional knowledge (TK) and traditional cultural expressions (TCEs) • Module 3: Protecting TK and TCEs with existing and adapted IP rights • Module 4: Protecting TK and TCEs with a <i>sui generis</i> system of protection • Final examination
Teaching	Academic support is provided throughout each module by experienced tutors who are expert practitioners in the field of IP.
Online discussions and assignments	Using the Academy's enhanced learning platform, experienced tutors/IP experts discuss landmark cases with participants. Special group projects will be launched by the Academy and its tutors on issues in which the participants show a high level of interest and engagement.
Final exam	There is a written final examination for this course. Participants are required to compose written responses to a series of questions within a specified timeframe and submit their responses, using the e-learning platform, to their tutors for marking. Participants will receive details on how to access the examination approximately one week before the deadline for completing the course.
Certificate	Participants who pass the final examination will be awarded a certificate of completion for the course.
Duration	The course requires approximately 70 hours of study time over a period of 12 weeks.
Target audience	This course is designed for officials of IP offices, government officials from other departments, policy-makers, diplomats, members of indigenous and local communities, employees of non-governmental organizations, intergovernmental organizations, lawyers, academics, researchers, students and individuals who already possess a working knowledge of the IP system. As the course covers the relationship between IP, TK and traditional cultural expressions, participants who are already familiar with the IP system may be best placed to benefit. It is recommended that prospective participants who are not already familiar with the IP system are take the Primer on Intellectual Property (DL-001) or the General Course on Intellectual Property (DL-101), both of which are available free of charge, before taking up this course.
Registration	Information on registration periods and enrollment is available at https://welc.wipo.int
Language of instruction	The course is offered in all six official languages of the United Nations (Arabic, Chinese, English, French, Russian and Spanish) and in Portuguese.
Tuition fees	As an advanced course, DL-203 incurs registration fees – see page 40 for more details.

10. Introduction to the UPOV System of Plant Variety Protection (DL-205-UPOV)

Description	This advanced course aims to provide a comprehensive description of the main notions, conditions and principles of the protection provided for new plant varieties under the International Convention for the Protection of New Varieties of Plants (the UPOV Convention).
Content and structure	The course comprises 11 modules and a final examination. <ul style="list-style-type: none"> • Module 1: Nature of plant breeding and the need for plant breeders' rights • Module 2: Subject matter and entitlement to protection • Module 3: Conditions of protection • Module 4: Applying for a plant breeder's right • Module 5: Testing for distinctness, uniformity and stability (DUS) • Module 6: Scope of the plant breeder's right – acts and material covered • Module 7: Scope of the plant breeder's right – varieties within the scope of the plant breeder's right • Module 8: Exceptions and restrictions to the plant breeder's right • Module 9: Nullity and cancellation of the plant breeder's right • Module 10: International Union for the Protection of New Varieties of Plants • Module 11: Implementation of the Convention and Final Provisions • Final examination
Teaching	Academic support is provided by experienced tutors who are expert practitioners in the field of intellectual property (IP).
Final exam	The final examination for this course includes a series of multiple-choice questions. Participants have a fixed amount of time in which to complete and submit the examination online. Participants will receive details on how to access the examination approximately one week before the deadline for completing the course.
Certificate	Participants who pass the final examination will be awarded a certificate of completion for the course.
Duration	The course requires approximately 36 hours of study time over a period of four weeks.
Target audience	This course is specifically designed for officials and IP personnel within the public or private sectors. <ul style="list-style-type: none"> • Public sector – government officials responsible for drafting plant breeders' rights legislation and the management of plant breeders' rights offices, organizers of distinctness, uniformity and stability (DUS) trials, and DUS examiners. • Private sector – plant breeders, IP managers and IP agents/attorneys; students.
Registration	Information on registration periods and enrollment is available at: http://www.upov.int/resource/en/training.html
Language of instruction	The course is offered in English, French, German and Spanish.
Tuition fees	As an advanced course, DL-205 incurs registration fees – consult the online course catalogue for details and updates at: https://welc.wipo.int/acc

11. Advanced Course on Patents (DL-301)

Description	This advanced course aims to give participants an in-depth perspective on the principles and economic impact of patents and the patenting process as a whole. It incorporates an examination of the traditional use of patents by centers of knowledge such as universities and other specialized institutions of higher learning. It provides participants with a comprehensive review of the importance of patent pools in facilitating the effective transfer and development of technology.
Content and structure	This course includes eight substantive modules and a final examination. <ul style="list-style-type: none"> • Module 1: The macroeconomic impact of the patent system • Module 2: The patent application process • Module 3: The different layers of the international patent system and regional patent protection mechanisms • Module 4: Kinds of intellectual property protection based on types of inventions • Module 5: Legal issues in the patenting process • Module 6: Enforcement • Module 7: New issues, important cases and discussions • Module 8: Intellectual property and development – flexibilities and public domain under patents • Final examination
Teaching	Academic support is provided throughout each module by experienced tutors who are expert practitioners in the field of intellectual property (IP).
Online discussions and assignments	Using the Academy's enhanced learning platform, experienced tutors/IP experts discuss landmark cases with participants. Special group projects will be launched by the Academy and its tutors on issues in which the participants show a high level of interest and engagement.
Final exam	There is a written final examination for this course. Participants are required to compose written responses to a series of questions within a specified timeframe and submit their responses, using the e-learning platform, to their tutors for marking. Participants will receive details on how to access the examination approximately one week before the deadline for completing the course.
Certificate	Participants who pass the final examination will be awarded a certificate of completion for the course.
Duration	The course requires approximately 120 hours of study time over a period of 12 weeks.
Target audience	This course is designed for people who already have a sound knowledge of the fundamentals of IP. It is open to legal practitioners, employees of IP offices, individuals involved in research and development and university students. Given the advanced nature of the course, prospective participants wishing to undertake this course who do not possess solid knowledge of the fundamentals of IP are advised to complete the free-of-charge General Course on Intellectual Property (DL-101) before taking up this course.
Registration	Information on registration periods and enrollment is available at https://welc.wipo.int
Language of instruction	The course is offered in Arabic, Chinese, English, French, Portuguese, Russian and Spanish. The language versions of this course will be under review during 2018-2019. Please visit the website for further details.
Tuition fees	As an advanced course, DL-301 incurs registration fees – see page 40 for more details.

12. Advanced Course on Trademarks, Industrial Designs and Geographical Indications (DL-302)

Description	This advanced course aims to raise awareness of the complex issues involved in protecting and managing intellectual property (IP) for branding. It is a preparatory course designed to precede practical training in the protection of trademarks, industrial designs and geographical indications.
Content and structure	This course includes seven substantive modules and a final examination. <ul style="list-style-type: none"> • Module 1: The role of trademarks, industrial designs and geographical indications in the market • Module 2: Trademarks • Module 3: Geographical indications • Module 4: Industrial designs • Module 5: Protection against unfair competition • Module 6: Making brands and managing IP • Module 7: IP and development – flexibilities and public domain under trademarks • Final examination
Teaching	Academic support is provided throughout each module by experienced tutors who are expert practitioners in the field of IP.
Online discussions and assignments	Using the Academy's enhanced learning platform, experienced tutors/IP experts discuss landmark cases with participants. Special group projects will be launched by the Academy and its tutors on issues in which the participants show a high level of interest and engagement.
Final exam	There is a written final examination for this course. Participants are required to compose written responses to a series of questions within a specified timeframe and submit their responses, using the e-learning platform, to their tutors for marking. Participants will receive details on how to access the examination approximately one week before the deadline for completing the course.
Certificate	Participants who pass the final examination will be awarded a certificate of completion for the course.
Duration	The course requires approximately 120 hours of study time over a period of 12 weeks.
Target audience	Participants should have a general interest in making the best use of IP in marketing and managing intangible assets of a private company. The course targets staff in IP offices and research and development (R&D) institutions, legal practitioners and university students with knowledge of IP. It is highly recommended that participants who do not have prior knowledge of IP take the free-of-charge General Course on Intellectual Property (DL-101) before taking up this course.
Registration	Information on registration periods and enrollment is available at https://wec.wipo.int
Language of instruction	The course is offered in Arabic, Chinese, English, French, Portuguese, Russian and Spanish. The language versions of this course will be under review during 2018-2019. Please visit the website for further details.
Tuition fees	As an advanced course, DL-302 incurs registration fees – see page 40 for more details.

13. Advanced Course on Examination of Applications for Plant Breeders' Rights (DL-305-UPOV)

Description	The objective of this advanced course is to provide a basic understanding of the examination of applications for plant breeders' rights under the International Convention for the Protection of New Varieties of Plants.
Content and structure	This course includes 13 substantive modules and a final examination. <ul style="list-style-type: none"> • Section I Operating a plant breeders' rights (PBR) office <ul style="list-style-type: none"> – Module 1: The PBR office – Module 2: Administration of applications – Module 3: Entitlement to a breeder's right – Module 4: Information to be published • Section II Examining novelty <ul style="list-style-type: none"> – Module 5: Examining novelty • Section III Examining the variety denomination <ul style="list-style-type: none"> – Module 6: Examining the variety denomination • Section IV DUS examination <ul style="list-style-type: none"> – Module 7: Introduction to the DUS examination – Module 8: Variety collections – Module 9: Examining distinctness – Module 10: Examining uniformity – Module 11: Examining stability – Module 12: Conducting the DUS trial – Module 13: Cooperation in DUS testing • Final examination
Teaching	Academic support is provided throughout each module by experienced tutors who are expert practitioners in the field of intellectual property (IP).
Final exam	The final examination for this course includes a series of multiple-choice questions. Participants have a fixed amount of time in which to complete and submit the examination online. Participants will receive details on how to access the examination approximately one week before the deadline for completing the course.
Certificate	Participants who pass the final examination will be awarded an electronic certificate of completion for the course.
Duration	This course requires approximately 70 hours of study time over a period of four weeks. It can be taken as a single course (DL-305) or as two separate courses (DL-305A and DL-305B): <ul style="list-style-type: none"> • DL-305A: Administration of Plant Breeders' Rights (approximately 30 hours); and • DL-305B: DUS Examination (approximately 45 hours).
Target audience	Officials/officially appointed persons responsible for running PBR offices or for drafting PBR legislation; key staff of PBR offices; organizers of distinctiveness, uniformity and stability (DUS) trials; DUS examiners; plant breeders; IP managers; IP agents/attorneys; and academics/students. Prerequisite course: Before taking this course, prospective participants must have successfully completed the Introduction to the UPOV System of Plant Variety Protection (DL-205-UPOV) by obtaining at least 70% in the final examination for that course.
Registration	Information on registration periods and enrollment is available at http://www.upov.int/resource/en/training.html
Language of instruction	The course is offered in English, French, German and Spanish
Tuition fees	As an advanced course, DL-305 incurs registration fees – see page 40 for more details.

14. Advanced Course on Arbitration and Mediation Procedure under the WIPO Rules (DL-317)

Description	This is an intermediate level course that aims to provide participants with a comprehensive understanding of the main features and advantages of the procedures designed by the WIPO Arbitration and Mediation Center. It gives participants an in-depth knowledge of the way to identify the most appropriate dispute resolution procedure for particular cases and the most appropriate dispute resolution clauses for insertion into agreements.
Content and structure	This course includes four substantive modules and a final examination. <ul style="list-style-type: none"> • Module 1: The WIPO Arbitration and Mediation Center • Module 2: Mediation • Module 3: Arbitration and expedited arbitration • Module 4: Conducting the arbitration • Final examination
Teaching	Academic support is provided throughout each module by experienced tutors who are expert practitioners in the field of intellectual property (IP).
Online discussions and assignments	Using the Academy's enhanced learning platform, experienced tutors/IP experts discuss best practices and landmark cases with participants. Special group projects will be launched by the Academy and its tutors on issues in which the participants show a high level of interest and engagement.
Final exam	There is a written final examination for this course. Participants are required to compose written responses to a series of questions within a specified timeframe and submit their responses, using the e-learning platform, to their tutors for marking. Participants will receive details on how to access the examination approximately one week before the deadline for completing the course.
Certificate	Participants who pass the final examination will be awarded a certificate of completion for the course.
Duration	The course requires approximately 70 hours of study time over a period of seven weeks.
Target audience	This course will be useful for people who generate and/or seek to protect various forms of IP and wish to gain a more comprehensive understanding of dispute settlement procedures under the WIPO Rules. As an intermediate-level course, it is designed for individuals who already possess a working knowledge of the fundamental concepts of IP law, and it is strongly recommended that prospective participants are functionally knowledgeable in IP or have already passed one of the following courses: the General Course on Intellectual Property (DL-101) which is available free of charge; the Advanced Course on Copyright and Related Rights (DL-201); the Advanced Course on Patents (DL-301); and the Advanced Course on Trademarks, Industrial Designs and Geographical Indications (DL-302).
Registration	Information on registration periods and enrollment is available at https://wec.wipo.int
Language of instruction	The course is offered in Arabic, Chinese, English, French, Portuguese, Russian and Spanish.
Tuition fees	As an advanced course, DL-317 incurs registration fees – see page 40 for more details.

15. Advanced Course on Patent Information Search (DL-318)

Description	This advanced course aims to introduce and comprehensively illustrate the concepts underlying patent information searching. Practical activities have been incorporated throughout the course to complement the theoretical principles that underpin patent information searching. Course participants are also furnished with in-depth information on sources, techniques and data used during patent searches.
Content and structure	The course includes eight substantive modules and a final examination. <ul style="list-style-type: none"> • Module 1: Introduction - the value of patent information • Module 2: Different types of patent search; the strategic use of patent information • Module 3: Techniques for searching patent documents • Module 4: Patent information search training • Module 5: Efficient and effective searching • Module 6: Specialized searches • Module 7: The patent search report • Module 8: Towards a greener economy • Final examination
Teaching	Academic support is provided throughout each module by experienced tutors who are expert practitioners in the field of intellectual property (IP).
Online discussions and assignments	Using the Academy's enhanced learning platform, experienced tutors/IP experts discuss best practices and landmark cases with participants. Special group projects will be launched by the Academy and its tutors on issues in which the participants show a high level of interest and engagement.
Final exam	There is a written final examination for this course. Participants are required to compose written responses to a series of questions within a specified timeframe and submit their responses, using the e-learning platform, to their tutors for marking. Participants will receive details on how to access the examination approximately one week before the deadline for completing the course.
Certificate	Participants who pass the final examination will be awarded a certificate of completion for the course.
Duration	The course requires approximately 120 hours of study time over a period of 12 weeks.
Target audience	The course targets staff in IP offices and research and development (R&D) institutions, legal practitioners and university students with knowledge of IP. It is highly recommended that prospective participants who do not have prior knowledge of IP take the General Course on Intellectual Property (DL-101) and the Advanced Course on Patents (DL-301) before taking up this course.
Registration	Information on registration periods and enrollment is available at https://welc.wipo.int
Language of instruction	The course is offered in Chinese, English, French, Portuguese and Spanish.
Tuition fees	As an advanced course, DL-318 incurs registration fees – see page 40 for more details.

16. Advanced Course on Basics of Patent Drafting (DL-320)

Description	This advanced course aims to complement participants' previous knowledge regarding patent drafting and is intended to be used as a preparatory course for further, intensive, practical training in the field. It is neither a qualification course for patent drafting nor a replacement for existing training manuals for patent attorneys or patent agents in countries in which robust systems for professional education in the area of patent practices exist.
Content and structure	<p>The course material has been designed on the basis of common denominators of several national patent laws in which most applicants seek patent protection.</p> <p>The course includes five substantive modules, thematic discussions and a final examination.</p> <ul style="list-style-type: none"> • Module 1: Introduction - why might you want a patent? • Module 2: Overview of patents • Module 3: Drafting a patent application; the claims • Module 4: Drafting a patent application; the description • Module 5: Self-assessment questions; practical exercises in claim drafting • Thematic discussions with patent drafting experts on: <ul style="list-style-type: none"> – chemistry patents; – pharmaceutical patents; – biotechnology patents; – computing and communications patents; – general mechanical patents; • Final examination
Teaching	Academic support is provided throughout each module by experienced tutors who are expert practitioners in the field of intellectual property (IP).
Online discussions and assignments	Using the Academy's enhanced learning platform, experienced tutors/IP experts discuss best practices and landmark cases with participants. Special group projects will be launched by the Academy and its tutors on issues in which the participants show a high level of interest and engagement.
Final exam	The final examination for this course includes a series of multiple-choice questions and questions requiring written responses. Participants have a fixed amount of time in which to complete and submit the examination online. They will receive details on how to access the examination approximately one week before the deadline for completing the course.
Certificate	Participants who pass the DL-320 final examination will be awarded a certificate of completion for the course.
Duration	The course requires approximately 120 hours of study time over a period of 12 weeks.
Target audience	This course is predominantly designed for inventors, scientists, engineers and others engaged in technical endeavors. Participants are expected to have a solid working knowledge of the fundamentals of IP. Prospective participants who do not possess basic knowledge in IP are strongly advised to complete the free-of-charge General Course on Intellectual Property (DL-101) before taking up this course.
Registration	Information on registration periods and enrollment is available at https://wec.wipo.int
Language of instruction	The course is offered in Arabic, Chinese, English, French, Portuguese, Russian and Spanish.
Tuition fees	As an advanced course, DL-320 incurs registration fees – see page 40 for more details.

17. Advanced Course on Intellectual Property Management (DL-450)

Description	This advanced course aims to raise awareness of the principal concepts of intellectual property management (IPM) and its importance as a spur to human creativity and economic and social development. It explains how to develop and implement an IPM strategy, including the management of intellectual property (IP) in an online environment.
Content and structure	The course includes nine substantive modules that address the interdisciplinary nature of IPM and a final examination. <ul style="list-style-type: none"> • Module 1: IPM – introduction and overview • Module 2: Economic perspectives on IPM • Module 3: Innovation and IP protection • Module 4: IP value and finance • Module 5: IP and commercialization • Module 6: Online IPM • Module 7: Strategy for IPM • Module 8: IP and development – open source, flexibilities and public domain • Module 9: Case studies on IPM • Final examination
Teaching	Academic support is provided throughout each module by experienced tutors who are expert practitioners in the field of IP.
Online discussions and assignments	Using the Academy's enhanced learning platform, experienced tutors/IP experts discuss best practices and landmark cases with participants. Special group projects will be launched by the Academy and its tutors on issues in which the participants show a high level of interest and engagement.
Final exam	There is a written final examination for this course. Participants are required to compose written responses to a series of questions within a specified timeframe and submit their responses, using the e-learning platform, to their tutors for marking. Participants will receive details on how to access the examination approximately one week before the deadline for completing the course.
Certificate	Participants who pass the final examination will be awarded a certificate of completion for the course.
Duration	The course requires approximately 120 hours of study time over a period of 12 weeks.
Target audience	This course targets professionals with a basic knowledge in IP or business management who are responsible for generally managing and protecting various forms of IP, with an enhanced legal and business focus. It is strongly recommended that registrants already possess knowledge of IP or have taken the free-of-charge General Course on Intellectual Property (DL-101). Some knowledge of copyright, patents and trademarks would be an asset. Courses on these three subjects are available through the WIPO Academy's Advanced Course on Copyright and Related Rights (DL-201); Advanced Course on Patents (DL-301); and the Advanced Course on Trademarks, Industrial Designs and Geographical Indications (DL-302).
Registration	Information on registration periods and enrollment will be available at https://welc.wipo.int
Language of instruction	The course is offered in Arabic, Chinese, English, French, Portuguese, Russian and Spanish.
Tuition fees	As an advanced course, DL-450 incurs registration fees – see page 40 for more details.

18. Advanced Course on Collective Management of Copyright and Related Rights for Legal Practitioners (DL-501)

Description	<p>This advanced course aims to build participants' knowledge of the fundamentals of copyright and, in particular, the international copyright treaties that have a bearing on the management and enforcement of rights nationally. It provides an overview of issues in which legal practitioners are customarily involved in relation to the collective management of copyright and related rights, and it outlines the ways in which creators, users, legislators and society at large benefit from the system of collective management.</p> <p>Legal practitioners must understand what collective management organizations (CMOs) do, how they acquire mandates from rights holders and how they license the use of protected works. Although practitioners' advice may be required on almost any aspect of collective management, the most common issues concern the establishment of a CMO, the agreements that are concluded with rights holders and users of protected works, as well as the settlement of tariff disputes and aspects of competition law.</p>
Content and structure	<p>The course includes 12 modules and a final examination.</p> <ul style="list-style-type: none"> • Module 1: The Berne Convention - principles and works • Module 2: The Berne Convention - rights and limitations relevant to collective management • Module 3: Related rights and the Rome Convention • Module 4: The WIPO Copyright Treaty and the WIPO Performances and Phonograms Treaty • Module 5: The Beijing Treaty on Audiovisual Performances • Module 6: Introduction to collective management for legal practitioners • Module 7: Good governance, transparency and accountability of CMOs • Module 8: Duties and responsibilities of a lawyer • Module 9: Competition and antitrust laws • Module 10: Transfers of rights to and from a CMO • Module 11: Dispute resolution • Module 12: Different forms of a CMO and different licensing vehicles • Final examination
Teaching	Academic support is provided by experienced tutors who are expert practitioners in the field of collective management.
Online discussions and assignments	Using the Academy's enhanced learning platform, experienced tutors/intellectual property (IP) experts discuss best practices and landmark cases with participants. Special group projects will be launched by the Academy and its tutors on issues in which the participants show a high level of interest and engagement.
Final exam	There is a written final examination for this course. Participants are required to compose written responses to a series of questions within a specified timeframe and submit their responses, using the e-learning platform, to their tutors for marking. Participants will receive details on how to access the examination approximately one week before the deadline for completing the course.
Certificate	Participants who pass the final examination will be awarded a certificate of completion for the course.
Duration	The course requires approximately 80 hours of study time over a period of ten weeks.
Target audience	This course is open to legal practitioners, managers in copyright offices and staff in CMOs, broadcasting organizations or publishing industries, academics and university students with prior knowledge of IP, such as those who have successfully completed General Course on Intellectual Property (DL-101) or the Advanced Course on Copyright and Related Rights (DL-201).
Registration	Information on registration periods and enrollment is available at https://welc.wipo.int
Language of instruction	The course is offered in English, French, Portuguese, Russian and Spanish.
Tuition fees	As an advanced course, DL-501 incurs registration fees – see page 40 for more details.

19. Advanced Course on Collective Management of Copyright and Related Rights for Rights Holders (DL-502)

Description	This advanced course is designed for anyone intending to build in-depth knowledge of collective management, but especially primary rights holders, and aims to raise awareness of the ways in which creators, users, legislators and society at large benefit from the system of collective management. It covers the workings of collective management of copyright in the categories of music, text and images, works of visual art and photography, and dramatic works. After a basic introduction to copyright and related rights, refreshing the knowledge that participants should already have acquired before studying the course, it identifies the three main elements of a properly functioning copyright system: legislation, policy and the management of rights. The overriding principle is that whenever it is impracticable or impossible for intellectual property (IP) rights holders to exercise their rights individually, collective management is a feasible solution. The course examines the synergies that exist among stakeholders in the legal, creative, management and policy arenas in order to balance the benefits of creators and society. It discusses the day-to-day work of collective management organizations (CMOs) and the way in which they are governed. Finally, learners can examine the challenges and opportunities brought about by digital technologies and the Internet through pre-planned questions and answers, and dynamic discussions among peers and experts.
Content and structure	The course includes seven modules, at the end of which there is a final examination. <ul style="list-style-type: none"> • Module 1: Introduction to collective management • Module 2: Collective management for rights holders – music rights • Module 3: Collective management for rights holders – related rights in music • Module 4: Collective management for rights holders in the audiovisual industries • Module 5: Collective management for rights holders in the text and image-based sector • Module 6: Collective management for rights holders in visual arts and photography • Module 7: Collective management for rights holders in dramatic works • Final examination
Teaching	Academic support is provided by experienced tutors who are expert practitioners in the field of collective management.
Online discussions and assignments	Using the Academy's enhanced learning platform, experienced tutors/IP experts discuss important and landmark cases with the participants. Special group projects will be launched by the Academy and its tutors on topics in which the participants show a high level of interest and engagement.
Final exam	There is a written final examination for this course. Participants are required to compose written responses to a series of questions within a specified timeframe and submit their responses, using the e-learning platform, to their tutors for marking. Participants will receive details on how to access the examination approximately one week before the deadline for completing the course.
Certificate	Participants who pass the final examination will be awarded a certificate of completion for the course.
Duration	The course requires approximately 120 hours of study time over a period of ten weeks.
Target audience	This course is open to managers in copyright offices and staff in collective management organizations, broadcasting organizations or publishing industries, legal practitioners, academics and university students with prior knowledge of IP, such as those who have successfully completed the General Course on Intellectual Property (DL-101) or the Advanced Course on Copyright and Related Rights (DL-201).
Registration	Information on registration periods and enrollment is available at https://wcl.wipo.int
Language of instruction	The course is offered in English, French, Portuguese, Russian and Spanish.
Tuition fees	As an advanced course, DL-502 incurs registration fees – see page 40 for more details.

20. Advanced Course on Collective Management of Copyright and Related Rights for Collective Management Organizations (DL-503)

Description	This advanced course is designed for anyone intending to learn in-depth about collective management, especially people from collective management organizations (CMOs). It aims to raise awareness of the ways in which creators, users, legislators and society at large benefit from the system of collective management. It covers the workings of the collective management of copyright in the categories of music, text and images, works of visual art and photography, and dramatic works. After a basic introduction to copyright and related rights, refreshing knowledge that participants should have already acquired before studying the course, it identifies the three main elements of a well-functioning copyright system: legislation, policy and management of rights. The overriding principle is that whenever it is impracticable or impossible for intellectual property (IP) rights holders to exercise their rights individually, collective management is a feasible solution. The course examines the synergies that exist among stakeholders in the legal, creativity, management and policy arenas in order to balance the benefits to creators and society. It also discusses the day-to-day work of CMOs and the way in which they are governed. Finally, learners can examine the challenges and opportunities brought about by digital technologies and the Internet through pre-planned questions and answers, and dynamic discussions among peers and experts.
Content and structure	This course includes seven modules and a final examination. <ul style="list-style-type: none"> • Module 1: Introduction to collective management • Module 2: Collective management for collective management organizations – music rights • Module 3: Collective management for collective management organizations – related rights in music • Module 4: Collective management for collective management organizations in the audiovisual industries • Module 5: Collective management for collective management organizations in the text and image-based sector • Module 6: Collective management for collective management organizations in visual arts and photography • Module 7: Collective management for collective management organizations in dramatic works • Final examination
Teaching	Academic support is provided by experienced tutors who are expert practitioners in the field of collective management.
Online discussions and assignments	Using the Academy's enhanced learning platform, experienced tutors/IP experts discuss important and landmark cases with participants. Special group projects will be launched by the Academy and its tutors on topics in which the participants show a high level of interest and engagement.
Final exam	There is a written final examination for this course. Participants are required to compose written responses to a series of questions within a specified timeframe and submit their responses, using the e-learning platform, to their tutors for marking. Participants will receive details on how to access the examination approximately one week before the deadline for completing the course.
Certificate	Participants who pass the final examination will be awarded a certificate of completion for the course.
Duration	The course requires approximately 125 hours of study time over a period of ten weeks.

Target audience	This course is open to managers in copyright offices and staff in collective management organizations, broadcasting organizations or publishing industries, legal practitioners, academics and university students with prior knowledge of IP, such as those who have successfully completed the General Course on Intellectual Property (DL-101) or the Advanced Course on Copyright and Related Rights (DL-201).
Registration	Information on registration periods and enrollment is available at https://wcl.wipo.int
Language of instruction	The course is offered in English, French, Portuguese, Russian and Spanish.
Tuition fees	As an advanced course, DL-503 incurs registration fees – see page 40 for more details.

21. Advanced Course on Collective Management of Copyright and Related Rights for Policy-Makers (DL-506)

Description	This advanced course introduces policy-making on the collective management of copyright and related rights. It considers the three main elements of a well-functioning copyright system: legislation, enforcement and management of rights. Management of rights is mostly the task of the private sector, but in cases where legislation includes special stipulations on collective management, policy-makers, too, have a direct role. The main objectives of the course are to examine the various legislative frameworks for collective management and to study the role that government can play in the collective management of rights. The course raises awareness of the ways in which creators, users, legislators and society at large benefit from the system of collective management in music and sound recordings, film and audiovisual works, print and publishing, visual arts and photography, and dramatic works. Policy-makers play a direct role in legislation and enforcement. Their primary role is to lay down legislative frameworks for copyright and collective management. In some countries, they can also have a supervisory role in relation to collective management.
Content and structure	This course includes two modules and a final examination. <ul style="list-style-type: none"> • Module 1: Introduction to collective management • Module 2: Collective management for policy-makers • Final examination
Teaching	Academic support is provided by experienced tutors who are expert practitioners in the field of collective management.
Online discussions and assignments	Using the Academy's enhanced learning platform, experienced tutors/intellectual property (IP) experts discuss landmark cases with participants. Special group projects will be launched by the Academy and its tutors on topics in which the participants show a high level of interest and engagement.
Final exam	There is a written final examination for this course. Participants are required to compose written responses to a series of questions within a specified timeframe and submit their responses, using the e-learning platform, to their tutors for marking. Participants will receive details on how to access the examination approximately one week before the deadline for completing the course.
Certificate	Participants who pass the final examination will be awarded a certificate of completion for the course.
Duration	The course requires approximately 40 hours of study time over a period of six weeks. It can be completed in two weeks.
Target audience	This course is open to legal practitioners, managers in copyright offices and staff in collective management organizations (CMOs), broadcasting organizations or publishing industries. It is open to academics and university students with basic knowledge of IP, such as those who have successfully completed the General Course on Intellectual Property (DL-101).
Registration	Information on registration periods and enrollment is available at https://wcl.wipo.int
Language of instruction	The course is offered in English, French, Portuguese, Russian and Spanish.
Tuition fees	As an advanced course, DL-506 incurs registration fees – see page 40 for more details.

22. Advanced Course on Software Licensing, Including Open Source (DL-511)

Description	This advanced course aims to enhance awareness of the possibilities and implications of proprietary and open-source software, and to create useful sources of information, including concrete examples and a bibliography on software licensing, whether proprietary or open source, with special emphasis on the needs of developing countries.
Content and structure	The course includes four modules and a final examination. <ul style="list-style-type: none"> • Module 1: Intellectual property (IP) regimes for software • Module 2: Software licensing – traditional and open source • Module 3: Benefits and risks of open-source software strategies • Module 4: Public policy options to support wider access to open source software • Final examination
Teaching	Academic support is provided by experienced tutors who are expert practitioners in the field of software licensing.
Online discussions and assignments	Using the Academy's enhanced learning platform, experienced tutors/IP experts discuss landmark cases with participants. Special group projects will be launched by the Academy and its tutors on topics in which the participants show a high level of interest and engagement.
Final exam	The final examination for this course includes a series of multiple-choice questions. Participants have a fixed amount of time in which to complete and submit the examination online.
Certificate	Participants who pass the final examination will be awarded an electronic certificate of completion for the course.
Duration	The DL-511 course requires approximately 30 hours of study time over a period of ten weeks.
Target audience	This course is open to legal practitioners, managers in copyright offices and staff in collective management organizations, broadcasting organizations or publishing industries, academics and university students with prior knowledge of IP, such as those who have successfully completed the General Course on Intellectual Property (DL-101) or the Advanced Course on Copyright and Related Rights (DL-201).
Registration	Information on registration periods and enrollment is available at https://wcl.wipo.int
Language of instruction	The course is offered in Arabic, Chinese, English, French, Portuguese, Russian and Spanish.
Tuition fees	As an advanced course, DL-511 incurs registration fees for the sessions in which the tutors provide guidance. However, course content may be made available free of charge for participants who do not wish to receive guidance from tutors in learning the topic.

23. Executive Course on Promoting Access to Medical Technologies and Innovation (DL-701)

Description	This executive course aims to provide an overview of the interplay between the distinct policy domains of health, trade and intellectual property (IP). The course describes how they affect access to, and influence innovation in, medical technologies. It draws together the respective areas of expertise of the World Health Organization (WHO), WIPO and the World Trade Organization (WTO). It is based on the joint WHO/WIPO/WTO study <i>Promoting Access to Medical Technologies and Innovation</i> .
Content and structure	The course consists of the following topics and a final examination: <ul style="list-style-type: none"> • policy context for action on innovation and access; • issues on access from a public health perspective; • health systems-related determinants of access; • issues on innovation and public health with a focus on neglected diseases; • the role of IP in innovation and access; • trade-related issues and access to health-related products; • final examination.
Teaching	Academic support is provided by experienced tutors who are experts in the field. The Academy also offers a self-paced, non-tutored version of this course which is offered free-of-charge.
Online discussions and assignments	Using the Academy's enhanced learning platform, experienced tutors/IP experts discuss landmark cases with participants. Special group projects will be launched by the Academy and its tutors on topics in which the participants show a high level of interest and engagement.
Final exam	The final examination for this course includes a series of multiple-choice questions. Participants have a fixed amount of time in which to complete and submit the examination online.
Certificate	Participants who pass the final examination will be awarded an electronic certificate.
Duration	The course requires approximately 10 hours of study time over a period of four to five weeks.
Target audience	The target audience for this course primarily includes technical professionals such as patent examiners, health policy-makers and their assistants, drug procurement specialists, IP specialists and senior students. It is recommended that participants have a basic knowledge of intellectual property and the way in which it relates to health and trade issues at policy level before they study the course.
Registration	Information on registration periods and enrollment is available at https://welc.wipo.int
Language of instruction	The course is offered in Arabic, Chinese, English French, Portuguese, Russian and Spanish.
Tuition fees	As an advanced course, DL-701 incurs registration fees for the sessions in which tutors provide guidance. However, course content may be made available at no cost for participants who do not wish to receive guidance from tutors in learning the topic.

24. Intellectual Property for Teachers of the Young (IP4Teachers)

Description	<p>This course is offered in response to the demand by WIPO Member States to introduce intellectual property (IP) curricula for the young. There is a lack of access to and planning for IP education for teachers of young people. Teaching IP tends to be left to university level and law schools when, in fact the young interfaces with IP issues at a much younger age every year. The course covers all domains of IP using the General Course on Intellectual Property (DL-101) and focuses on copyright, patents and trademarks so that teachers could dynamically embed teaching about these domains of IP in their classrooms and curricula. The main tenet of this course is the teacher's role in encouraging creativity and inventiveness with a view to develop young people's entrepreneurial and philanthropic imagination. The second tenet is the teachers' effort to demonstrate and support youth in appreciating early on the effort that goes into bringing creative works and inventions to the public.</p>
Content and structure	<p>This course consists of instructionally designed modules providing an overview of existing policies, IP learning content, teachers' tools, interactive games and questions for young people, and a final teachers' assessment. The enhanced audiovisual and interactive games are divided into the following topics:</p> <p>Topic 1: Introduction to existing IP teaching challenges Topic 2: General Course on IP (DL-101), with a tutor Topic 3: Three interactive games on the following IP domains:</p> <ul style="list-style-type: none"> • Game 1: Copyright (30 min) • Teachers' Tools (180 min) <ul style="list-style-type: none"> – Copyright Case Study – Copyright Lesson Plan – Copyright Student Activities – Copyright Teachers' Notes • Game 2: Patents (30 min) • Teachers' Tools (180 min) <ul style="list-style-type: none"> – Patent Case Study – Patent Lesson Plan – Patent Student Activities – Patent Teachers' Notes • Game 3: Trademarks (30 min) • Teachers' Tools (180 min) <ul style="list-style-type: none"> – Trademark Case Study – Trademark Lesson Plan – Trademark Student Activities – Trademark Teachers' Notes <p>Topic 4: Final assessment of self-developed or customized teacher's curricula based on the WIPO Academy tools under Topic 3.</p>
Teaching and final exam	<p>Academic support is provided throughout the course; learners (who should be current teachers) can pose substantive questions to tutors online.</p>
Certificate	<p>An electronic certificate may be generated upon the successful completion of Topic 2 (for the DL-101) and Topic 4 (for the IP4Teachers course).</p>
Duration	<p>The course requires approximately 70 hours of study time over a period of eight weeks.</p>
Target audience	<p>The course is designed primarily for educators and teachers to guide their young target audiences. Persons with responsibility for introducing policies or developing IP teaching guidelines for the young could benefit from this course as well.</p>

Registration	Information on the registration periods and enrollment will be available at https://welc.wipo.int
Language of instruction	The course will be offered in English and Spanish.
Tuition fees	As a specialized course, this course is limited to teachers, educators and policy-makers in the relevant fields, free-of-charge, upon the recommendation of IP Offices and other government offices.

Blended Learning Courses

25. Advanced International Certificate Course on Intellectual Property Asset Management (AICC)

Description	The objective of this course is to provide an opportunity to participants in DL-IP Panorama and the Advanced Course on Intellectual Property Management (DL-450) who have little means of access to intellectual property (IP) education programs to deepen their knowledge in the specific field of IP management. This course is offered in collaboration with the Korean Intellectual Property Office (KIPO), the Korea Advanced Institute of Science and Technology (KAIST) and the Korea Invention Promotion Association (KIPA).
Content and structure	This course consists of the following three stages: Stage 1: Two online courses, the DL-IP Panorama and the Advanced Course on IP Management (DL-450); Stage 2: An IP essay; and Stage 3: The face-to-face training program. The face-to-face training covers four days, during which participants will learn about and discuss advanced topics and issues in IP asset management.
Teaching	Experienced tutors and trainers who are experts in the field of IP management provide academic support for stages one to three of the course.
Online discussions and assignments	Using the Academy's enhanced learning platform and that of KIPA-KIPO, experienced tutors/IP experts discuss landmark cases as well as good practices in IP management.
Final exam	Participants who are the best performers in stage one (the IP Panorama course and the Advanced Course on Intellectual Property Management (DL-450)) and stage two (the IP essay) will be invited to apply for the face-to-face program of the course.
Eligibility for face-to-face training	Admission to the face-to-face program is subject to a selection process, which includes the assessment of each applicant's motivation and qualifications in addition to their performance during stages one and two of the course.
Venue and date	The training course is expected to be held twice in 2019. Once in French during the first half of 2019 in Yaoundé, Cameroon and once in English during the second half of 2019 in Seoul, Republic of Korea. 2019 will mark the 10 th anniversary of the AICC in English held in the Republic of Korea. More specific information on registration periods and dates for the face-to-face training will be made available at https://welc.wipo.int and on the KIPA IP Discovery e-learning website: www.ipdiscovery.net
Certificate	Participants who pass the online courses and the IP essay, and participate in the face-to-face program will be awarded a certificate signed jointly by WIPO, KIPO and KIPA.
Duration	Online participation in stages one and two, including the selection process, is expected to take 15 weeks. The duration of the face-to-face course will be four days.
Target audience	The target audience for this course will be participants from developing countries who are involved in IP-based business development. Female applicants are highly encouraged.
Registration	Information on registration periods and enrollment will be available at https://welc.wipo.int and on the KIPA IP Discovery e-learning website www.ipdiscovery.net
Language	The course will be offered in English and French in 2019.
Scholarship and tuition Fee	Financial assistance is provided by WIPO, the Korean Intellectual Property Office (KIPO) and the Korea Invention Promotion Association (KIPA) to a limited number of junior professionals and applicants with demonstrable IP-based business initiatives. The financial assistance is expected to cover travel to the training venue plus subsistence expenses during the four days of training.

26. Intellectual Property-Impact Certificate Course – Certificate on General Knowledge of Intellectual Property for Teachers (IPCC)

Description	<p>The objective of this new course is to provide robust general intellectual property (IP) knowledge to participants from developing countries who are involved in the value chain of professional activities related to using, selling, producing and/or disseminating IP-intensive products and services in rapidly advancing innovative economic activities.</p> <p>There is a knowledge gap in developing countries due to rapid regional/national economic, social, cultural and technological developments, and this course aims to close that gap. It is offered in collaboration with the Korean Intellectual Property Office (KIPO), the Korea Advanced Institute of Science and Technology (KAIST) and the Korea Invention Promotion Association (KIPA). In 2019, it will be offered for the benefit of teachers of young people, education policy-makers and curriculum developers.</p>
Content and structure	<p>The course consists of the following three stages:</p> <p>Stage 1: Online courses, either the General Course on IP (DL-101) or IP Ignite; Stage 2: An IP essay; and Stage 3: The face-to-face training program.</p> <p>The face-to-face training is a four-day program, during which participants will learn about and discuss selected topics. The topics for discussion, languages and regional coverage will change each year. Participants will be selected from among those who achieve a high level of success in the DL-101 or IP Ignite courses offered by WIPO and KIPA-KIPO respectively.</p>
Teaching	Academic support for stages one to three of the course is provided by experienced tutors and trainers who are experts in the field of IP management.
Online discussions and assignments	Using the Academy's enhanced learning platform and that of KIPA-KIPO, experienced tutors/IP experts discuss important and relevant good practices in relation to the chosen IP topics.
Final exam	The best performing participants in DL-101 or IP Ignite (stage one) and the IP essay (stage two) will be invited to apply for the face-to-face program of the course.
Eligibility for face-to-face training	Admission to the face-to-face program is subject to a selection process, which includes assessment of each applicant's motivation and qualifications in addition to their performance during stages one and two of the course.
Venue and date	The IPCC is expected to take place in Peru in Spanish during the second half of the 2019. More specific information on registration periods and dates for the face-to-face training will be available at https://welc.wipo.int
Certificate	Participants who pass one of the online courses and the IP essay and participate in the face-to-face program will be awarded a certificate signed jointly by WIPO, KIPO and KIPA.
Duration	Online participation in stages one and two including the selection of participants is expected to take 15 weeks. The duration of the face-to-face course will be four days.
Target audience	The target audience for this course will be participants from developing countries who are teachers of young people, education policy-makers and curriculum developers.
Registration	Information on registration periods and enrollment will be available at https://welc.wipo.int
Language	The course will be offered in Spanish in 2019.
Scholarship and tuition Fee	Financial assistance is provided by the WIPO Academy, the Korean Intellectual Property Office (KIPO) and the Korea Invention Promotion Association (KIPA) to a limited number of applicants. The financial assistance is expected to cover tuition fees for the online learning phase, travel to the training venue and subsistence expenses during the four days of training.

27. Intellectual Property and the Life Sciences for Participants in the L'Oréal-UNESCO for Women in Science Programme

Description	<p>The main objective of the two-day face-to-face course is to provide women scientists from the L'Oréal-UNESCO for Women in Science Programme with the intellectual property (IP) knowledge that they must protect and add value to their research in the life sciences. The course is customized to focus on patents, an area of IP in which the scientists have a particular interest.</p> <p>The training course consists of lectures, interactive exercises, a roundtable discussion with WIPO staff and a visit to the European Organization for Nuclear Research (CERN).</p> <p>On completion of the course, participants will receive guidance from the WIPO Academy on the next steps in their IP education and its relationship to their research in the life sciences. The scientists will, moreover, have the opportunity to build connections between their research institutions and relevant WIPO sectors during the training course.</p>
Content and structure	<p>This course includes the following topics:</p> <ul style="list-style-type: none"> • IP and public health; • patents and their impacts on biotechnology inventions; • the structure of a patent document; • using patent information for informed decision making in the life sciences; • entrepreneurship support to research outputs in the life sciences; • university IP policies on commercialization of research outputs in the life sciences; • economics of IP: The case of life sciences and gender; • policy debates regarding patent protection issues; • IP knowledge development opportunities and the community of life scientists.
Teaching and final exam	There is no final examination in this training program.
Certificate	A certificate will be awarded to the participants after they have completed the training course successfully.
Duration	The duration of the course is two days.
Target audience	The course is designed for women scientists from the L'Oréal-UNESCO for Women in Science Programme.
Language of instruction	The course will be offered in English only.
Tuition fees	The course is offered free of charge to the selected participants from the L'Oréal-UNESCO For Women in Science Programme.

Continuing Judicial Education on Intellectual Property

28. General Course on Intellectual Property for Judges (DL-JD101)

Description	The WIPO Academy offers continuing judicial education based on the Academy's General Course on Intellectual Property (DL-101). The version available for members of the judiciary has been developed and reviewed by a panel of experienced judges representing the various regions and legal traditions. The online course is part of a comprehensive, multipurpose and customized train-the-trainer(s) service consisting of the distance learning course, face-to-face training and access to cases and reference materials. The full service can be offered at the request of Member States.
Content and structure	The course is accessible worldwide and comprises the following modules: Module 1: Introduction to intellectual property (IP) rights; Module 2: Copyright and related rights; Module 3: Trademarks; Module 4: Patents; Module 5: Geographical indications; Module 6: Trade secrets / undisclosed information; Module 7: Industrial design; Module 8: Other topics on IP; and Modular assessments.
Teaching and final exam	A modular assessment is available after each module in the course.
Certificate	A certificate will be awarded to the participants after they have completed the course successfully.
Duration	Each participant can work through the course material at a pace that suits them. It is estimated that the course material can be reviewed in approximately 75 hours.
Target audience	The course is designed for members of the judiciary who have been vetted by their respective national judicial institutions.
Registration	Information on registration periods and enrollment is available at https://wcl.wipo.int/jtip/training
Language of instruction	The course will be offered in Arabic, Chinese, English, French, Portuguese, Russian and Spanish.
Tuition fees	The course is offered free of charge to members of the judiciary who have been vetted by their respective national judicial institutions.

New Pilot Courses

29. Advanced Course on Copyright for Film Professionals

Description	The overall objective of the course is to encourage the development of local creative industries in the audiovisual field with a view to promoting their economic, social and cultural development while taking into account the digital environment from a legal and business perspective.
Content and Structure	The curriculum is expected to develop and strengthen copyright management skills and capacities through, among other things, best practices in the field and to provide comparative business and legal practices.
Duration	Participants can work through the course material at a pace that suits them. It is estimated that the course material can be reviewed in approximately 25 to 30 hours.
Target audience	Professionals of the film production and distribution chain involved in copyright. The course is useful to copyright lawyers who need to enhance their professional capacities to assist local audiovisual sector stakeholders in developing countries.
Registration	Information on registration periods and enrollment is available at https://welc.wipo.int
Language of instruction	The course will be offered in English, French and Spanish.
Tuition fees	This course is offered free of charge.

30. Enforcement of Intellectual Property Rights (DL-303)

Description	<p>The objective of this new course is to provide a factual overview of the legal and practical framework for intellectual property (IP) enforcement, with a particular focus on areas of interest to legal practitioners and IP enforcement authorities.</p> <p>The course will:</p> <ul style="list-style-type: none"> • provide an overview of the international legal framework for IP enforcement; • set out relevant provisions in multilateral, plurilateral and bilateral treaties dedicated to IP enforcement; • identify the particularities of the topics of IP enforcement and building respect for IP, and their attendant challenges; • address topics recurring in WIPO capacity building activities, such as online enforcement, environmentally friendly destruction of IP infringing goods, proceeds of crime and IP, and private international law; and • give examples of “case studies” to illustrate key learning points.
Content and structure	<p>This course includes the following 11 modules, and final questions:</p> <ul style="list-style-type: none"> • Module 1: Introduction to IP enforcement; • Module 2: The international IP enforcement framework; • Module 3: Civil procedures and remedies; • Module 4: Criminal procedures; • Module 5: Border measures; • Module 6: Approaches to online infringement; • Module 7: Disposal or destruction of infringing and counterfeit goods; • Module 8: Specialized judiciary; • Module 9: IP and private international law; • Module 10: Alternative dispute resolution; • Module 11: Example case studies; and • Final questions.
Teaching and final exam	Academic support is provided by experienced tutors who are expert practitioners in the area of IP enforcement.
Certificate	An electronic certificate may be generated upon successful completion of the final questions.
Duration	Participants can work through the course material at a pace that suits them. It is estimated that the course material can be reviewed in approximately 80 hours.
Target audience	The course is designed for participants who plan to attend further training to develop their knowledge on IP enforcement to the full; they may be IP enforcement actors, IP practitioners and students. It is strongly recommended that prospective participants complete the General Course on Intellectual Property (DL-101) before taking up this course.
Registration	Information on registration periods and enrollment will be available at https://welc.wipo.int
Language of instruction	The course will be offered in English only, on a pilot basis.
Tuition fees	As an advanced course, the DL-303 incurs registration fees for the sessions in which tutors provide guidance.

31. Introduction to the Madrid System (DL-MADRID)

Description	<p>The objective of this new course is to provide current users, future users and other parties interested in intellectual property (IP) with an overview of the Madrid System as a cost-effective solution for registering and managing trademarks worldwide.</p> <p>The modules contain knowledge check questions at various points, and scenarios to complement the learners' understanding of the materials presented in the modules to provide a more practical guide to the process.</p>
Content and structure	<p>The course includes the following six modules and a final assessment:</p> <ul style="list-style-type: none"> • Module 1: Introduction to the Madrid System; • Module 2: Overview of the accession process; • Module 3: Role of the office of origin; • Module 4: Office of a designated contracting party; • Module 5: Communication with WIPO and online tools and services; • Module 6: Post registration management; and • Final assessment.
Final assessment	The final assessment consists of a number of multiple-choice questions.
Certificate	An electronic certificate may be generated upon successful completion of the final assessment.
Duration	Participants can work through the course material at a pace that suits them. It is estimated that the course material can be reviewed in approximately 40 hours.
Target audience	The course is designed for participants who are interested in learning more about the Madrid System. It is particularly useful to managers in offices that are considering joining the Madrid System and to examiners and administrators in new offices.
Registration	Information on registration periods and enrollment will be available at https://welc.wipo.int
Language of instruction	The course will be offered in English during the pilot phase.
Tuition fees	This course will be offered on a pilot basis in 2019 and participants will be invited to register at no cost.

Academic Institutions Program

Academic Institutions Program

Joint Master's Programs on Intellectual Property

The Academic Institutions Program of the WIPO Academy offers year-long Joint Master's Programs on intellectual property (IP) in cooperation with selected academic institutions – and, in some instances, also with sub-regional or national IP administrations – in Africa, Asia and the Pacific, Europe and Latin America. The curricula and syllabi of the programs are developed jointly by the WIPO Academy and the relevant partner institution(s).

The aim of these Joint Master's Programs is to facilitate access to IP higher education for all qualified individuals. A limited number of scholarships is available for qualified nationals of developing countries, least developed countries and countries with economies in transition, who belong to relevant public sector institutions, including universities. Interested candidates from developed countries from the private sector (law firms, enterprises or private universities), if admitted, are required to finance their tuition, accommodation and travel costs.

The following Joint Master Programs will be organized in 2019/20:

1. Master's Degree in Intellectual Property (MIP), offered jointly by the WIPO Academy, the African Regional Intellectual Property Organization (ARIPO) and Africa University in Mutare, Zimbabwe
2. Master of Laws (LL.M) in Intellectual Property, offered jointly by the WIPO Academy and Queensland University of Technology (QUT) in Brisbane, Australia
3. Master of Laws (LL.M) in Intellectual Property, offered jointly by the WIPO Academy and the University of Turin, in cooperation with the International Training Centre of the International Labor Organization (ITC-ILO,) in Turin, Italy
4. Master's Degree in Intellectual Property (MIP) offered jointly by the WIPO Academy, the Denis Ekani Intellectual Property Academy of the African Intellectual Property Organization (OAPI) and the Faculty of Legal and Political Sciences of the University of Yaoundé II (UYII) in Yaoundé, Cameroun
5. Master's Degree in Intellectual Property (MIP), offered jointly by the WIPO Academy, the Turkish Patent Institute and Ankara University in Ankara, Turkey
6. Master's Degree in Intellectual Property with Specialization in Design (MIP in Design), offered jointly by the WIPO Academy and Tongji University in Shanghai, People's Republic of China
7. Master's Degree in Intellectual Property and Innovation (MIPI), offered jointly by the WIPO Academy, the National Institute of Industrial Property (INPI) of Argentina and the University of San Andres in Buenos Aires, Argentina
8. Master's Degree Program in Intellectual Property and New Technologies (MIP and New Technologies), offered jointly by the WIPO Academy, the Patent Office of Poland and Jagiellonian University in Krakow, Poland (new)

1. Master's Degree in Intellectual Property (MIP), offered jointly by the WIPO Academy, the African Regional Intellectual Property Organization (ARIPO) and Africa University in Mutare, Zimbabwe

This program is organized with the financial assistance of the Government of Japan.

Subjects covered	<ul style="list-style-type: none"> • General introduction to intellectual property (IP) • Patents • Trademarks and geographical indications • Competition and antitrust • Industrial designs • Copyright and related rights • Food and Agriculture Organization of the United Nations, the Convention on Biological Diversity, the International Union for the Protection of the New Varieties of Plants System and public health • Traditional knowledge, folklore and genetic resources • Transfer of technology and IP asset management and strategic planning • Innovation and entrepreneurship • IP and small and medium-sized enterprises (SMEs) and large enterprises • Enforcement of intellectual property rights • Practical sessions at ARIPO • Annual conference • Research and writing of a dissertation
Language of tuition	English
Admission requirements	<p>To be considered, applicants must:</p> <ul style="list-style-type: none"> • be nationals of an African country; • hold at least a lower second-class Bachelor's degree from a recognized university in any discipline; and • be fluent in English.
Maximum number of students	A total of 35 places is available for self-supported and financed students.
Scholarships	<p>A limited number of scholarships is available. Scholarships cover:</p> <ul style="list-style-type: none"> • the return ticket; • registration and tuition fees; • full board and lodging; and • medical insurance. <p>Visa costs, if any, are at the expense of participants.</p> <p>Successful applicants for WIPO scholarships are notified by the WIPO Academy. Thereafter they will be provided with relevant information, including travel arrangements.</p>
Application forms	<p>Application forms are available on the websites of the WIPO Academy, ARIPO and Africa University:</p> <p>www.wipo.int/academy www.aripo.org www.africau.edu</p>
Venue	Mutare, Zimbabwe
Dates	<ul style="list-style-type: none"> • May to July 2019: compulsory distance learning (DL) phase, including a final examination, through the WIPO Academy e-Learning Center (https://welc.wipo.int/); • August to December 2019: residential phase in Mutare, Zimbabwe, including a two-week practical training course and an IP annual conference at ARIPO Headquarters in Harare, Zimbabwe; and • December 2019 to April 2020: finalization and submission of a dissertation.

Award	Successful students will be awarded a Master's Degree in Intellectual Property (MIP) by Africa University on behalf of WIPO and ARIPO.
Teachers	Classes are delivered by eminent academics from Africa University, ARIPO, visiting lecturers from other leading universities, reputed IP professionals and staff of the co-organizers, including WIPO.
More information	Visit the WIPO Academy, ARIPO and Africa University websites for more details and updated information: www.wipo.int/academy www.aripo.org www.africau.edu

2. Master of Laws (LL.M) in Intellectual Property, offered jointly by the WIPO Academy and Queensland University of Technology (QUT) in Brisbane, Australia

This program is organized in cooperation with IP Australia.

Subjects covered	<ul style="list-style-type: none"> • General introduction to intellectual property (IP) • Patents and biotechnological inventions • Copyright and related rights • Trademarks, domain names and geographical indications • Industrial designs law and practice and plant variety protection • Traditional knowledge and other emerging issues • Interface between antitrust and IP rights • IP management and commercialization • Research project • Study visit to IP Australia
Language of tuition	English
Admission requirements	<p>To be considered, applicants must:</p> <ul style="list-style-type: none"> • hold a four-year Bachelor's degree in any discipline from QUT or an equivalent Australian or overseas institution. Applicants with a three-year Bachelor's Degree and professional experience in the field of IP may be considered for admission; and • be fluent in English.
Maximum number of students	A total of 35 places is available for self-supported and financed students.
Scholarships	<p>A limited number of scholarships is available. Scholarships cover:</p> <ul style="list-style-type: none"> • the return ticket; • registration and tuition fees; • full board and lodging; and • medical insurance. <p>Visa costs, if any, are at the expense of participants.</p> <p>Successful applicants for WIPO scholarships are notified by the WIPO Academy. Thereafter, they will be provided with relevant information, including travel arrangements.</p>
Application forms	<p>Application forms are available on the WIPO Academy and Queensland University of Technology websites: www.wipo.int/academy www.qut.edu.au</p>
Venue	Brisbane, Australia
Dates	Fully residential: February to October 2019.
Award	Successful students will be awarded a Master of Laws (LL.M) Degree in Intellectual Property by the Queensland University of Technology on behalf of WIPO.
Teachers	Classes are delivered by eminent academics from the Queensland University of Technology, Brisbane, visiting lecturers from other leading universities, and reputed IP professionals and staff of WIPO and other co-organizers.
More information	<p>Visit the WIPO Academy and Queensland University of Technology websites for more details and updated information: www.wipo.int/academy www.qut.edu.au</p>

3. Master of Laws (LL.M) in Intellectual Property, offered jointly by the WIPO Academy and the University of Turin in Turin, Italy

This program is organized in cooperation with the International Training Centre of the International Labor Organization (ITC-ILO).

Subjects covered	<ul style="list-style-type: none"> • General introduction to intellectual property (IP) • Patents • Copyright and related rights • Intellectual property and economics • IP and international law • Trademarks and domain names • Geographical indications • Industrial designs • Unfair competition and antitrust • Technology transfer • Exploitation and enforcement of IP • New IP rights • Annual conference • Study visit to WIPO • Research project
Language of tuition	English
Admission requirements	<p>To be considered, applicants must:</p> <ul style="list-style-type: none"> • hold a degree in law, economics, engineering, medicine, physics, chemistry, communication sciences or business administration, with university attendance of a minimum of four years in one or more of the above fields is required; and • be fluent in English. This will be assessed through a recognized English proficiency test.
Maximum number of students	A total of 40 places is available for self-supported and financed students.
Scholarships	<p>A limited number of scholarships is available. Scholarships cover:</p> <ul style="list-style-type: none"> • the return ticket; • registration and tuition fees; • full board and lodging; and • medical insurance. <p>Visa costs, if any, are at the expense of participants. Successful applicants for WIPO scholarships are notified by the WIPO Academy. Thereafter, they will be provided with relevant information, including travel arrangements.</p>
Application forms	<p>Application forms are available on the WIPO Academy and University of Turin websites: www.wipo.int/academy en.unito.it</p>
Venue	Turin, Italy
Dates	<ul style="list-style-type: none"> • September to December 2019: compulsory distance learning (DL) phase, including a final examination, through the WIPO Academy e-Learning Center (https://welc.wipo.int/); • January to April 2020: residential phase in Turin, Italy. This includes a three-day visit to WIPO Headquarters in Geneva; and • May 2020 to July 2020: preparation and submission of a final research paper.
Award	Successful students will be awarded a Master of Laws (LL.M) Degree in Intellectual Property by the University of Turin on behalf of WIPO.
Teachers	Classes are delivered by eminent academics from the University of Turin, Italy, visiting lecturers from other leading universities, reputed IP professionals and the staff from the co-organizers, including WIPO.
More information	<p>Visit the WIPO Academy and University of Turin websites for more details and updated information: www.wipo.int/academy http://www.turin-ip.com</p>

4. Master's Degree in Intellectual Property (MIP), offered jointly by the WIPO Academy, the Denis Ekani Intellectual Property Academy of the African Intellectual Property Organization (OAPI) and the Faculty of Legal and Political Sciences of the University of Yaoundé II (UY II) in Yaoundé, Cameroon

This program is organized with the financial assistance of the Government of Japan.

Subjects covered	<ul style="list-style-type: none"> • General introduction to intellectual property (IP) • Other African IP systems (ARIPO, Moroccan Patent Office, etc.) • Technical and ornamental creations • Patents • Utility models • Industrial designs • Special titles (plant varieties, topographies of integrated circuits) • Distinctive signs • Marks for goods and services • Trade names • Appellations of origin • Geographical indications • Literary and artistic property • Copyright and related rights • Electronic commerce and copyright • Defense of IP rights • Competition and IP • IP disputes • The workings of IP • IP and technology transfer • IP audit • Economics of IP • Current IP issues • Dissertation
Language of tuition	French
Admission requirements	<p>To be considered, applicants must:</p> <ul style="list-style-type: none"> • be nationals of an African country; • hold at least a Bachelor's Degree in law, economics, sciences or an engineering diploma issued by a recognized university; and • be fluent in French.
Maximum number of students	A total of 35 places is available for self-supported and financed students.
Scholarships	<p>A limited number of scholarships is available. Scholarships cover:</p> <ul style="list-style-type: none"> • the return ticket; • registration and tuition fees; • full board and lodging; and • medical insurance. <p>Visa costs, if any, are at the expense of participants.</p> <p>Successful applicants for WIPO scholarships are notified by the WIPO Academy. Thereafter, they will be provided with relevant information, including travel arrangements.</p>
Application forms	<p>Application forms are available on the WIPO Academy, OAPI and University of Yaoundé websites:</p> <p>www.wipo.int/academy www.oapi.int www.universite-yde2.org</p>
Venue	Yaoundé, Cameroon

Dates	<ul style="list-style-type: none"> • October 2019 to January 2020: compulsory distance learning (DL) phase including a final examination, through the WIPO Academy e-Learning Center (https://welc.wipo.int/); • January to June 2020: residential phase at the University of Yaoundé II and at the OAPI Denis Ekani Intellectual Property Academy in Cameroon, including three weeks' practical work experience at OAPI Headquarters in Yaoundé; and • June 2020: examination and submission of a dissertation (<i>mémoire</i>) in Yaoundé.
Award	Successful students will be awarded a Master's Degree in Intellectual Property (MIP) by the University of Yaoundé on behalf of WIPO and OAPI.
Teachers	Classes are delivered by eminent academics from the University of Yaoundé, Cameroon, visiting lecturers from other leading universities, reputed IP professionals and staff from the co-organizers, including WIPO.
More information	Visit the WIPO Academy, OAPI and University of Yaoundé websites for more details and updated information: www.wipo.int/academy www.oapi.int www.universite-yde2.org

5. Master's Degree in Intellectual Property (MIP) (Specialization in Patent Law and Design Law), offered jointly by the WIPO Academy, the Turkish Patent and Trademark Office and Ankara University in Ankara, Turkey

This program is organized in cooperation with the Government of Turkey through the Turkish Patent and Trademark Office (TurkPatent).

Summer Schools Program

Summer Schools Program

General Information on the WIPO Summer Schools

The WIPO Summer Schools provide an opportunity for young professionals and university students to acquire deeper knowledge of intellectual property (IP), including an understanding of IP as a tool for economic, social, cultural and technological development and the role of WIPO in this regard.

All Summer Schools, except the specialized ones, share a common curriculum, format and duration. Participants are exposed to various aspects of IP, including the international nature of IP protection and the interface between IP and other disciplines. The program takes an interdisciplinary, problem-oriented approach and includes lectures, simulation exercises, group discussions on selected IP topics, panel discussions and case studies.

<i>Content and structure</i>	<ul style="list-style-type: none"> • WIPO and its role in promoting creativity and innovation • Selected contemporary issues in the field of trademarks • International and regional trademark systems • Geographical indications: The international landscape and current issues • Design protection and its interface with other IP fields • Internet domain names and alternative dispute resolution, including an illustration of cases • Trademarks and the internet: Issues and challenges • Branding – a case study • International and regional patent systems • Selected contemporary issues in the field of patents • The use of patent information • Protection of trade secrets: current issues • Selected cases on patents and biotechnology • International protection of copyright and related rights • Selected contemporary issues in the field of copyright and related rights • Limitations and exceptions of copyright, including access to copyright works for visually impaired persons • Unfair competition and IP • Economics of IP • IP management: A practical approach • IP valuation • Transfer of technology and licensing • Simulation exercises on licensing negotiations • Creative industries and IP: Copyright licensing • Protection of new plant varieties, including the UPOV Convention • IP and biodiversity: International landscape and current issues • Panel discussion: <ul style="list-style-type: none"> – IP and public health: Issues and challenges – IP, green technology and climate change: Issues and challenges – Selected cases on enforcement of IP rights • Group discussion: <ul style="list-style-type: none"> – Technology transfer in the field of IP – Copyright in the digital age – Open innovation – Brands and branding
Language of tuition	Languages differ, depending on the summer school
Eligibility	Inter-regional in nature, the WIPO Summer Schools Program is aimed at senior and graduate students from any academic discipline as well as young professionals working in any field in which IP may play a part.
Distance-learning	Candidates will be required to complete successfully a session of the free-of-charge General Distance Learning Course on Intellectual Property (DL-101). Dates for the session will be announced and a special course for specialized Summer Schools will also be announced.
Registration fees	Please see relevant information on the WIPO Academy's website: www.wipo.int/academy/en/courses/summer_school
Travel, accommodation and living expenses	Participants are responsible for their own travel to and from various destinations, and for accommodation and living expenses during their participation in the program.
Scholarships	Scholarships are available for international participants in the Summer Schools taking place in the Republic of Korea and South Africa through funds from the Governments of the Republic of Korea and Japan, respectively. Scholarships include travel costs.
Award	A certificate of participation will be awarded to participants who meet program requirements.
Further details	To find out more about the various Summer Schools, visit the website at: www.wipo.int/academy/en/courses/summer_school .
